Arborio Gets Arterial Route, Grandview R-28

14 Figures Submitted For 2 Jobs

Two Projects Over 4 Million Dollars

John Arborio Inc., of Poughkeepsie was low bidder at $2,284,280.95 in Albany today for construction of Kingston's arterial route, and the Grandview Construction Corp., of Mt. Vernon bid low at $1,878,718.05 for the rebuilding of an upper section of Route 28.

Grandview was also second lowest at $2,496,534.90 for the arterial route project, which will be known as Interstate Route 530. Second lowest for the Route 28 project was County Asphalt Inc., of Tarrytown, which bid $1,913,321.10.

$4,058 to Remove Trees

Russell Finc Contractors, Inc., of Black River, at $4,058, was low bidder for a tree-removing project along sections of routes 9W and 212.

Eight bids were opened for the arterial route project and six for the Route 28 job. Among higher bidders for the arterial route were the Shanahan Construction Co., Ellenville, and the Lane Construction Co., Meridan, Conn.

State Estimates

The state estimate for the arterial route project was $3,169,000 and that for the Route 28 job was $2,059,000.

The Grandview Construction Co., which bid low on the Route 28 project is now completing construction of the spur which will connect Route 9W and the western approach to the Kingston-Rhinecliff Bridge.

To Be Four Lanes

A main phase of the arterial route will be a spur extending northwestward from the juncture of Albany Avenue and

9W-Bridge Spur Due To Be Late

SwampIsProblem, Local Span Busy

Opening of the spur to connect Route 9W with the Kingston-Rhinecliff Bridge road appears to be delayed until late spring, the New York State Bridge Authority noted in a report released Wednesday.

The report noted "a modest increase" in traffic volume and toll revenue on Hudson River bridges under its control during the year's third quarter. Highest over 1957 was a 11.6 per cent increase in travel over the local span.

Needs Foundation

On the 9W spur, the authority reported that "An intermediate swamp section has proven to be a problem. It is necessary that a foundation for this section, which is not more than 500 feet long, be further stabilized.

"It now seems probable that the rock 'loading' which has been placed on the section, must be allowed to remain until spring before the pavement can be laid. This will prevent the opening of the connection to traffic until the latter part of the spring of 1959. The difficult portion of the right-of-way could not be avoided, because of unusual problems of land acquisition."

Clocks 567,564 Vehicles

The Kinbston-Rhinecliff Bridge, which clocked better than 11 percent increase over 1957 for the third quarter of the year was 12.7 per cent better for nine months.

The span clocked 567,564 this year as compared to 503,513 in 1957 for nine months. The third-quarter totals were 247,070 this year, and 221,413 in 1957.

All four bridges under control of the authority clocked 5,663,540, as against 5,807,162 for the nine months showing a loss of 2.5 per cent. The third-quarter gain, however, was .8 per cent, with the totals at 2,401,129 and 2,383,165.

Third-quarter gains on the Mid-Hudson and the Bear Mountain spans were 1.3 and .6 per

NO DATE SET FOR POURING CONCRETE DECK—Work on the Eddyville bridge was continuing steadily today with the laying of steel "stringers" which will form the floor for the roadbed. These stringers, or beams, are laid crosswise and secured to beams extending lengthwise across Rondout Creek. A spokesman for the Shanahan Construction Co. of Ellenville said the preparation of the "flooring system" was a slow process, that it took time to raise the heavy steel beams into place. Asked if he could say when pouring of concrete would begin he said he was unable to forecast exactly, that much basic work yet remains to be completed. The creek was down again and the work barge, which broke a cable during high waters last weekend, was secured firmly today. (Freeman photo)

Equals 'A' Bomb Used Over Japan

One Still to Go Prior to Deadline

By STEVE LOWELL

ATOMIC TEST SITE, Nev. (AP) —The biggest underground atomic explosion ever touched off by the United States blasted up through the top of a mesa today and shot a column of dirt more than 1,000 feet into the air.

The shot rocked the ground where newsmen were stationed 4½ miles away and shook large boulders off the edge of the mesa.

Ban Rests on Talks

The completion of this test in a tunnel left just one more to go today before the test deadline set by President Eisenhower at midnight tonight.

Actually the deadline will be 4 p.m. here because that will be midnight, Greenwich time. How long the ban remains in effect depends on the outcome of talks between the United States, Britain, and the Soviet Union.

The underground explosion, Blanca, was touched off in a tunnel that had dug 2,600 feet into the side of a mound and under a mesa.

Column Subsides

The great column of dirt that spewed up, probably 500 feet thick, began subsiding five minutes later and drifting away.

This explosion was rated as having the force of 20,000 tons of TNT, the same power as the atomic bombs dropped on Japan in World War II. This force is equal to that of a 40-car trainload of TNT.

Windup of testing brought sadness to Atomic Energy Commission scientists and officials.

Col. Ernest Tinson, technical director of Defense Department participation in atomic tests, said: "Lots of us who have been in it a long time sure hate to see today be the end."

When the last of the Los Alamos, N.M., scientific laboratory's test weapons was detonated Wednesday night, "Taps" sounded over a loud-speaker at News Nob observation point.

This series has operated on the most stepped-up schedule of any ever conducted here in order to beat the suspension deadline. Three weapons were exploded on two separate days—the first time this had ever been done here.

Five shots were scheduled Wednesday but two had to be held over until today.

Prayers, Hymns Helped

Rescued Miners Relate Long Hours of Ordeal

By THE ASSOCIATED PRESS

SPRINGHILL, N.S. (AP) — Twelve miners brought to the surface today after being trapped nearly a week in a wrecked coal mine told of praying and singing hymns to keep up their courage as they waited out the long, dark hours.

Some of the sturdier ones told of the ordeal after their dramatic rescue early today from the Cumberland No. 2 coal mine, where they were trapped by a massive earth shift last Thursday night.

Tossed Against Roof

The force of the shift tossed them against the roof of the tunnel where they were working more than two miles from the mine entrance.

Hugh Guthro, 31, said he was buried up to his chest but remained conscious. He said he knew some of his comrades were dying along the coal wall. Other miners dug him out.

The 12 found themselves trapped in a pocket 100 feet long and 3 feet high. By some miracle, there was no gas and some fresh air seeped in through the debris, Guthro said.

Few Crusts of Bread

"At first we tried to dig our own way out but soon we got so weak we had to stop," he said. "We had no food and no water since Sunday or Monday. the last thing we ate were a few crusts of bread.

"We rationed our lights and cut some batteries off the dead men but on Monday we were in darkness. I'd say Caleb Rushton kept us going."

Rushton, 35, perhaps the strongest of the group when rescuers arrived, sang hymns.

The air gradually became bad. There was no room to stand. In their struggle to stay alive when the last water was gone, they drank urine mixed with bark, they told physicians.

Men Gave Up Hope

By Monday the men had given up hope of being rescued. Hope also had been abandoned on the surface, but the rescue crews kept digging.

Then Wednesday rescue crews stumbled on a broken air pipe leading to the entombed men and heard the muffled voice of Gorley Kempt, 37, say:

"There are 12 of us here, come and get us. Get us water."

Soon after the men got their first sustenance in at least four days. Coffee laced with sugar and vitamins was fed to the men through a copper tube inserted in the air pipe.

The men waited while the res-

Declares Farmers Should Have Say About Marketing

By THE ASSOCIATED PRESS

SARATOGA SPRINGS, N. Y. (AP)—Farmers should have the same type of economic advantages enjoyed by labor and industry, the national master of the Grange said Wednesday night.

Herschel D. Newsom told the 86th annual meeting of the New York State Grange that farmers should have a voice in determining how their products should be marketed.

Approximately 1,000 are attending the four-day meeting, which ends Friday.

The farmer, he asserted, should have increased bargaining power and "such economic devices as other business and production has long used. . ."

Government legislation, he said, has helped business "regulate and control the production and marketing of its products and services."

Newsom said the farmer wanted to raise his income by getting a fair price for his products, not by receiving larger subsidies.

He declared:

"We believe that Americans have both a moral and economic obligation to pay an American price for products which they use or consume from American farms. However, individual taxpayers have no obligation to subsidize total agricultural production. . ."

Newsom said that farmers provided labor, management, risk and investment and were entitled to a return on those factors on the same basis as other segments of the nation's economy.

HalloweenParade, Party Plans for City Fete Given

Mayor Edwin F. Radel and Andrew J. Murphy, 3rd, superintendent of the recreation department, today announced completion of plans for the annual Halloween parade and party.

"The usual line of march will prevail," they said, with the parade starting on Maiden Lane, Academy Green, at 7 p. m. It will go down Broadway to the municipal auditorium, and is due to arrive there at about 7:30 p. m.

Then it will continue down Broadway to Delaware Avenue and Broadway "to lead participants from that area to the auditorium." There the usual costume contest will be conducted and prizes will be awarded the winners.

$95,000 Is Contributed By Families

By THE ASSOCIATED PRESS

ALBANY, N. Y .(AP) — The Harriman and Rockefeller families have contributed more than $95,000 to the election battle between two of their most famous members.

Campaign statements filed with the Department of State report that:

Democratic Gov. Harriman, his wife and two daughters have given $27,000 to his campaign for re-election.

Fifteen members of the Rockefeller family have contributed more than $68,000 to help elect Republican Nelson A. Rockefeller as governor.

Reports Not Complete

By mid-October, Republicans have spent over $840,000 on behalf of their state ticket and Democrats had spent at least $745,000.

Full accountings of campaign contributions and expenditures will be made after the election next Tuesday. The reports are required by law. The most recent reports were made public Wednesday.

The Rockefeller contributors include such moneyed names as Astor, DuPont, Whitney, Firestone, Guggenheim and Aldrich.

Those who contributed to Harriman included millionaire Herbert Lehman, former New York governor and U. S. senator, and Henry Morgenthau Jr., one-time U. S. secretary of the Treasury. Two big unions also made substantial contributions to Harriman.

One contributor spanned both

Koch Script Panicked Thousands

Spacemen's 'Invasion' Occurred 20 Years Ago

Few written words ever caused more panic than those put down by a former Kingstonian 20 years ago, and this is the anniversary date of the great stir Howard E. Koch, formerly of Schryver Court, then on the Orson Welles writing staff, produced the script but its radio presentation brought the big booboo of the air waves.

Warriors from outer planets were in your backyards, it said, in effect, to people close to New York City's metropolitan areas, and thousands who failed to grasp its fictional intent went panicky before the realistic bulletin ended.

Roads Jammed

Apartment houses quickly emptied in New York, New Jersey roads were jammed, especially near Trenton, where a space craft was supposed to have landed, and other reactions spread clear across the nation.

A Pittsburgh woman tried suicide, a New York actress was injured in attempting a fast getaway, and some residents in the State of Washington wondered if an electric power failure was caused by spacemen.

Swamped With Calls

Switchboards in newspapers over a wide area were swamped with calls, and as one wire report said, "All over the metropolitan area panicky persons" jumped into cars and took off for the hills or points unknown.

Panic spread, even though the presentation was reported fictional four times during the broadcast.

It all happened at Charlie McCarthy time (Edgar Bergen NBC feature of the day) but the CBS adaptation of H. G. Wells' "War of the Worlds" apparently had had enough effective advance notices to pull away some of the McCarthy fans.

Koch Went to Hollywood

One report noted that those listening to the lighter lines of Charlie undoubtedly saw their neighbors dashing out of their homes, and wondered why.

Welles, then 23 years old, had

November 6 Set For Review of Trial Testimony

Testimony compiled in the trial of Deputy Police Chief Robert F. Murphy, who appeared last week on charges, will be reviewed Nov. 6, it was decided last night.

The police board, last Thursday, dismissed nine specifications, and reserved decision on nine others after four nights of hearing. Members of the board with Mayor Edwin F. Radel and Attorney Walter A. Caddell, of Ossining, met last night to discuss remaining testimony and to set a date to act upon it.

Date Acceptable

The date, it was noted, is acceptable to both Corporation Counsel William A. Kelly and to N. LeVan Haver, counsel for Murphy.

Murphy was charged with misconduct and incompetence on

10th Feather Plaque Goes To Cadillac-Olds Concern

The 10th area group to earn the Community Chest Honor Plaque Award for participation in the Red Feather campaign was listed today.

Richard A. Stewart, chairman of the drive's business and industry division, announced that the employes of DeWitt Cadillac-Oldsmobile, Inc., 250 Clinton Avenue, have qualified under the two standards: 90 per cent participation and total employe gift equal to 60 per cent giving at the Fair Share standard.

In another Community Chest development, the New York Central Railroad announced today that it is continuing to support the local federated fund appeal with a firm gift again this year.

Recognizing the value of the "one drive for many" concept, the railroad was taking this means of demonstrating its corporate citizenship in the communities it serves, a spokesman pointed out. It was noted that the Central attempts to participate to the best of its ability in communitywide efforts all along its line, throughout the system.

It was also announced today that total pledges received in the once-a-year campaign for 10 agencies reached $111,286.20, or 86.5 per cent of the goal. Additional funds and pledges are being received daily as campaign leaders and workers are continu-

GREETED AT COLUMBIANS LUNCHEON —Attorney Frank Campochiaro, local governor of the Columbian Republican League, greets Rodman Rockefeller (left) son of Nelson A. Rockefeller, Republican candidate for governor, during a luncheon of the league held Wednesday at the Casablanca Restaurant, 602 Broadway. Waiting to greet the 26-year-old son of the GOP candidate are (l-r) Raymond J. Mino, Republican candidate for district attorney; Assemblyman Kenneth L. Wilson, chairman of the Ulster County Republican Committee, and Frank Tufaro, president of the state Columbian League. (Freeman photo).

Rodman Rockefeller Sees Dad as Great Leader, Is Speaker Before Columbians

A 26-year-old son of Nelson A. Rockefeller, Republican candidate for governor, told a Columbian Republican League luncheon here Wednesday noon that his father had always taught their family to respect human dignity and the right of the individual.

Youthful Rodman Rockefeller, standing tall, erect and with a very resonant voice, told representatives of the league, comprised of Americans of Italian descent from area counties, that the Republican party was a party of leadership "and we have a new leader on the horizon — my father."

More than 125 league members at the Casablanca Restaurant, 602 Broadway, also heard leaders of their organization charge that the Democrats were attempting to villify the Republican state ticket because of the absence from it of an American of Italian extraction.

Frank Tufaro, president of the New York State Columbian League, charged the Democrats were "trying by fraud" to mislead the voters. Several refused to accept a spot on the GOP ticket "for their own personal reasons," Tufaro said, describing the Democratic charges as "vicious talk."

Other speakers included former Senator Arthur H. Wicks, former City Judge Raymond J. Mino, Republican candidate for district attorney, and Attorney Frank Campochiaro, governor of the local league chapter and luncheon chairman.

Wicks, introduced by Campochiaro as "a man who has done a lot for our people," made an impassioned appeal to "get out the vote on Election Day."

The former state senator noted that in 1929 Franklin D. Roosevelt ran as Democratic candidate for governor, and in 1954 it was Averell Harriman.

"In 1928, Roosevelt was elected by 18,000 and in 1954, Harriman won by 11,000, which means that if we had had one more vote in each election district in the State of New York, it would have changed the course of history," Wicks said.

Also introduced were Assemblyman Kenneth L. Wilson, county Republican chairman; Jesse McHugh, vice-chairman, and Attorney Thomas Saccoman, president of the local chapter.

Rockefeller's son, who has been touring the state in behalf of his father's candidacy, described the local luncheon "as a heartwarming tribute."

Harry Hohnhorsts Celebrate Golden Wedding Anniversary

Mr. and Mrs. Harry H. Hohnhorst of Woodstock celebrated their golden wedding anniversary on Tuesday of this week.

Married in Cleveland, O., on Oct. 28, 1908, the Hohnhorsts have been residents of Woodstock for nearly 40 years. Mrs. Hohnhorst is the former Johanna Meyer.

Recalling their first visit to Woodstock, Hohnhorst said: "We came to Woodstock for a two weeks' vacation and were so impressed by its beauty that we have remained for 40 years." The Hohnhorsts first took up residence in the old Lasher studios and two years later they purchased some property and built their present home which resembles a chateau out of Grimm's fairy tales. It is one of the priceless landmarks of Woodstock.

Mr. Hohnhorst, who has earned fame as an artist, illustrator and cartoonist in a distinguished career, was a member of the original colony of artists who first brought international fame to Woodstock. The list of early day Woodstock immortals included, among others, Eugene Speicher, George Bellows, Robert Henri, Anton Otto Fischer, Miska Petersham, Carl Eric Lindin, Birge Harrison, John Carroll, Frank Chase, Harry Temple, Clarence J. McCarthy, Allen Cochrane and others.

In Newspaper Field

During his early years, Hohnhorst served as director and instructor of the first Art Students League in Woodstock. He spent 18 years in the newspaper field as cartoonist and illustrator. At the tender age of 14 he was doing political cartoons for the Cleveland Plain-Dealer. Later he joined the sports department as cartoonist for sports editor, Joe Williams, now of the New York World-Telegram.

After leaving the newspaper field, Hohnhorst entered the art advertising field as a free lancer. Later he studied the fine arts of painting in France and Italy. He remained in that field to become one of Woodstock's more prominent artists.

A fine athlete, Hohnhorst developed his golfing skill to a high degree. He twice won the Woodstock Country Club championship and was Ulster County Seniors champion in Class A in 1954, 1956, 1957 and this year became the Class B champion.

Mr. and Mrs. Hohnhorst have the best wishes of the entire community for many more happy anniversaries.

Country Club Group Honors Bruff W. Olin

A group of golfing cronies joined in a going away party for Bruff W. Olin Tuesday at the Woodstock Country Club.

Olin, the Ulster County Seniors Class A champion for 1958, is leaving for East Lansing, Michigan, today, accompanied by Thomas H. Dendy, for Saturday's Michigan State homecoming game against Wisconsin. They will make the trip by car.

The venerable Woodstock Country Club member is a "patriarch" at Michigan State, an honor for varsity letter graduates on the occasion of their 50th anniversary of graduation. Olin, who graduated from MS in 1906, earned his letter in track.

Among those joining in the tribute to Olin were Tony de Lisio, club president; J. Carson Hutchins, club pro; Joseph S. Forno, Thomas H. Dendy, George Schwarzwaelder, Philip Coletti, Allan Dean Elwyn, Wayne Underhill, William J. Melville, Miska Petersham, Harry Hohnhorst, Frank A. Benson and Charles J. Tiano.

'Whom Else But God' Topic For Rev. Olson

"Whom Else But God" is the sermon title for the Rev. Wayne C. Olson in the Dutch Reformed Church in Woodstock, Sunday, Nov. 2. It will be a treatment of Joshua's parting words to the Children of Israel, "Choose ye this day whom ye will serve; as for me and my house, we will serve the Lord." The service begins at 11 a. m., and nursery facilities are provided.

Sunday School classes meet at 9:30 a. m. Tony Laudiero has been added to the teaching staff; he teaches the "Junior Boys." Plans for a teacher training class are being made.

The church Consistory will hold its regular monthly meeting on Nov. 4 in the church basement. One of its concerns will be the problems of the Woodstock Boy Scout Troop.

A training session for visitors for the Every Member Canvass will be hed in the church basement on Sunday, Nov. 2, at 3 p. m. The filmstrip, "Go Forth in His Name" will be shown.

Mrs. Goins Chairman In West Hurley Area

Mrs. James Goins is the chairman for the Girl Scout fund drive for the West Hurley area of the Woodstock-West Hurley Neighborhood.

Assisting Mrs. Goins are the following workers in her area: Miss Dolores Beesmer, Mrs. Herbert Bundy, Mrs. Everett Glass, Mrs. Alfred Nussbaum, Mrs. F. T. Vernon, Mrs. Harold Garrison, Mrs. Aubrey Berry, Mrs. Robert Nussbaum, Mrs. Charles Duffy, Mrs. Walter Behringer, Mrs. Lewis Port, Mrs. Clifford Seaman, Mrs. Harold Every and Mrs. Donald Baines.

These workers will cover most of the West Hurley area, but if anyone is missed during the drive and wishes to donate to the fund, a check made to the order of the Ulster County Council of Girl Scouts and mailed to any of the workers, will be appreciated.

Girl Scouts Elect Their Patrol Leaders

Officers were elected at the recent meeting of Girl Scout Troop 27, which is under the direction of Mrs. Benjamin Merch and Mrs. Thomas Horsey.

The new officers are: Sue Stern, chairman; Vicki Johnson, scribe; and Kay Mower, treasurer. Because of the size of the troop (23 girls), they have divided into Patrols, with names and leaders as follow:

Cinderella Patrol, Pat Leavy, leader, and Sue Stern, assistant; Bumble Bee Patrol, Judy Longyear, leader, and Sandy Merch, assistant; and Brown Bunnies Patrol, Debbie Allen, leader; and Kathy Greene, assistant.

The troop is assisted in all other activities by the Troop Committee which includes Mrs. Victor Allen, Mrs. Stephanie Baumgarten, Mrs. Andre Neher and Mrs. Kenneth Hefty.

Brownie Troop 27 entertained Brownie Troop 46 at a Halloween party in the Woodstock school gym this afternoon. Brownie Bunnies Patrol was in general charge of the program and the Bumble Be Patrol presented a play "The Magic Kettle" by Anne Patterson and the Cinderella Patrol served refreshments.

Reilly Receives Art Commission

Frank J. Reilly, an instructor at the summer sessions of the Art Students League in Woodstock, has been commissioned to do a 63 by 22 feet high, glass tesserae, mosiac mural for the entrance lobby of the brand new Bronx High School of Science.

The subject of the mosiac is The History of Science. It has four units—Chemistry, Mankind, Physics and Biology. It is now more than half finished.

The major figures are 22 feet high and the secondary figures, 16. There is a frieze depicting the implements of science in chronological sequence. There are 680 tesserae to each square foot of mosaic.

Frank J. Reilly, whose huge Art Students League classes testify both to the efficiency of his teaching methods and to a great personal popularity, has another mural in a high school near the La Guardia Airport.

Speaker Is Scheduled For Lydian Society

Mrs. Raymond Fairchild of Schenectady will address the Lydian Society on Wednesday, Nov. 5, at 2 p. m. in the church parsonage.

Mrs. Fairchild will speak on the new organization of the Department of Women's Work within the Reformed Church in America. The meeting is being held a week earlier than usual in order to accommodate the speaker.

As this is a meeting for reorganization purposes, it is urged that all ladies of the church try to attend.

'Swan-Upping'

All swans in the Thames River belong to the Queen of England and two London guilds, the Vintners and the Dyers. At a centuries-old ceremony called "swan-upping," a new generation of birds is taken up from the river each summer and divided according to the ownership of their parents.

DIRTY, BUT HAPPY—More American homes, at latest count, have television sets than have bathtubs. This is not meant to arouse doubts about the cleanliness of the citizenry, but merely points up the tremendous growth of the 12-year-old TV industry. According to Television Factbook, 42.4 million homes, or 84 per cent of the total, have one or more TV sets. This figure is exceeded only by the number of home radios.

Pork, Lamb Take Over As Best Meat Specials

By THE ASSOCIATED PRESS

Pork and lamb take the play away from beef this weekend in the nation's supermarkets and neighborhood grocery stores.

Some stores offer fresh ham, while others put a special price tag on smoked ham. Still others featured smoked, fully cooked ham ready-to-eat. Bacon, pork loin and shoulder cuts also are widely offered this week.

Lamb specials are mostly leg of lamb, although lamb shoulder and a combination of chops and stewing meat, sold together, are marked down in some places. Sirloin steak is the most frequent beef offering, reflecting prices lowered by as much as 20 cents a pound.

Leg of lamb is off 2 to 10 cents a pound in some areas, while pork chops are lower by as much as 16 cents a pound. Fryers mostly are more expensive.

The bargains in pork are expected to be repeated because hog marketings have started their usual fall climb.

With Halloween coming up, pumpkins are both plentiful and cheap.

Vegetable Buys

Other vegetables on the outstanding list are potatoes, yellow onions, cabbage, celery, lettuce, endive, escarole, squash, radishes and green onions.

Good buys include snap beans, broccoli, cauliflower, carrots and western lettuce. Sweet corn is lower than last week, making it a fairly good buy. Cucumbers and sweep potatoes are in the same category. Tomatoes, eggplant and peas are heading upward.

One bit of bad news for the housewife: Flood waters and heavy rain have damaged the forthcoming winter vegetable crop along the lower Rio Grande Valley in Texas, a major winter supply area. Carrots, cabbage, beans, peppers and onions will be affected.

Vehicle Bureau Lists Local License Revoked

A local driver license revocation for a major cause during the first half of October was listed today by Joseph P. Kelly, motor vehicle commissioner.

The license of William F. Weick, 18, of 6 Cottage Row, was revoked for conviction of a third violation within 18 months.

Bell Dividend Up

BUFFALO, N. Y. (AP)—Directors of Bell Aircraft Corp. have declared a dividend of 45 cents a share, an increase of 10 cents over the last dividend paid in June.

The new dividend is payable to shareholders of record Nov. 21.

LOVE SONG? — London rumors are linking romantically the name of American-born beauty, Lady Beatty, 36, with singer Frank Sinatra. The warbler, in town for a film premiere, reportedly paid several visits to the twice-married lady, whose marriage to Lord Beatty ended last June.

Contracts Given For Equipment in Fire Department

Contracts for a new fire engine, new hose, two utility trucks and 20 new fire alarm boxes were awarded by the Board of Fire Commissioners last night.

The new 1,200-gallon pumper will be purchased from the American-LaFrance Co., Elmira, and will replace Engine 1, now at Central Station. The latter unit will got to another station when the new pumper arrives.

The board voted to buy 10,000 feet of 2½-inch hose and 1,000 feet of 1½-inch hose from the Bi-Lateral Co., of Chicago, and 20 fire alarm boxes from the Gamewell Co., of Upper Newton, Mass. The latter will be installed in compliance with a two-year program aimed at bringing the fire alarm system up to standards set by the National Board of Fire Underwriters.

One of the new trucks will be used to service the fire alarm system and the other will be for the Wicks Company salvage unit. The chassis will be bought from the Bruckert GMC Truck Sales, Greenkill Avenue, and the bodies from Tomlinson's Body and Welding Shop, Hurley Avenue.

HALLOWEEN IS FOR FUN

Vandalism and the turning in of false alarms are as serious offenses on Halloween as they are on any other night during the rest of the year. Sometimes young people in their enthusiasm for fun forget the seriousness of such acts, so we trust parents will bring it to their attention.

The dubious joy of making a costly nuisance of oneself, resulting in a heavy price being paid by the community or property owner, can end in serious consequences. The police will bring to justice those found responsible for acts of vandalism.

The turning in of false alarms is another serious offense. Every time the fire apparatus is called out it costs the community money in wear and tear on the equipment as well as fuel used in responding. There is also the ever present danger of an accident that may cost some one his life.

Halloween is for fun—trick or treat, parades, dances, games and parties. The night of witches and goblins belongs to the little folks. Young grown-ups can help make Halloween a very pleasurable occasion for everyone.

Motorists also can help by slowing down a bit on Halloween and by keeping in mind that there'll be lots of children out that night—excited children who may dash into the street without advance warning.

Judging by their diligence at digging up opposition sins of past years, most congressional candidates must have taken at least a minor in archaeology.

IT'S NOT GENTEEL

Vice President Nixon and former President Harry Truman are a couple of realists who know that political campaigns, despite earlier protestations of ethics and morality, usually feature bare-knuckle infighting and eye gouging as election time nears. Neither of these two gladiators paid much attention to the urging by President Eisenhower and Secretary of State Dulles—and for that matter Sen. Mike Mansfield of Montana and other Democrats—that foreign policy not be made a partisan campaign issue.

Nixon responded by declaring that more hard-hitting debate of the issues was needed, and he didn't exempt foreign policy. Truman, while agreeing with the President that foreign policy should be bipartisan and thus above the political fire, said that since the administration had made foreign policy a campaign issue, so would he.

Since then the President himself has come out swinging. He branded the Democrats as a bunch of political schizophrenics, dominated by radicals and wild spenders with an affinity for socialism.

We doubt that the give-'em-hell technique changes many votes, but it does season the stew. It's good box-office. It thrills the party faithful and gives the voters a show. Moderation would do more to clarify the issues, but moderation is too genteel to exist more than sporadically in politics. Only the naive and the believers in miracles would think a genteel campaign possible.

To the country go and breathe autumnal embers' scent—unless you're fearful that you'll get your fenders bent.

HUNTING HAZARDS

The hunting season has opened and once again we advise all hunters to give some thought to safety practices.

When hunting there is no room for thoughtlessness, carelessness or nervousness. No one has the right to go hunting unless he first learns how to handle a gun and then exercises the care that is necessary for the safety of his fellow hunter and himself.

In previous hunting seasons, some were killed, others wounded. Many of these accidents could have been prevented. The stakes are high—life or death. There is no room for mistakes.

It also might be well for hunters to practice the rules of sportsmanship.

Don't make a tragedy out of a healthy sport. Be a sport and be extra careful.

The current campaign proves again that a lot of politicians don't know the difference between staying on a high level and getting far away from the issues.

'These Days'

By GEORGE SOKOLSKY

WINNER TAKE ALL

Madison Avenue in New York City is a place where women shop and advertising agencies are congregated. There is a bit of doggerel which says: "Telegraph, telephone, tell a woman!" The advertising agencies used to devote themselves strictly to commodity selling and the public relations firms to representing great corporations. When a public relations counsel represented an individual, he used to be called a press agent, which is still a generic term for the breed. When he had an actress bathe in milk to establish that she is an actress, he was regarded as a genius among press agents. However, few advertising firms or public relations firms went into politics which is controversial.

In fact, advertising firms used to say that just as many Democrats as Republicans buy soap or eat sardines or whatever it is they are to sell, and get into a controversy? That is how, in the 1930's, the liberals got the conservatives off the air, because liberals were never controversial, even if they were disguished Communists, but conservatives were always controversial even if they were at heart patriots. It was a curious distinction which no one ever understood.

Since Wendell Willkie ran for President, some advertising firms have specialized in politics and many public relations firms have gone into it too. Sometimes it is disguised as institutional advertising. At other times, it is an outright effort to get the nomination for a person or to get him elected. In fact, since candidates became too busy to write their own speeches, some of these advertisers and public relations counsel prepare their speeches and even ideas.

All these various purveyors of selling ideas depend upon certain simple notions which have proved true by long experience. One of these is that all the world loves a winner. Therefore, in a political campaign one of the tricks is to give the impression that, despite all odds, a certain candidate is bound to win. Evidence is adduced by polls that a shift has taken place. The whispering campaign starts with a simple aphorism: "He is doing better than expected."

Actually no candidate is doing one way or the other until the votes are in. But polls are taken, surveys are made, excitement is created. It used to be done by torch-light processions; now it is done by whispering. The whispering campaign is always organized from the top down. A man with a name, prominently placed, will say in a restaurant, a little louder than is permissible, "It looks like Jones has it in the bag." Or such a distinguished person, who is on the inside, will telephone a talkative friend and say that he knows, beyond doubt, that Smith is worried, his wife, with whom the telephoner dined last night, is absolutely scared because it is so clear that Jones has it in the bag.

But how can one know two or three weeks before Election Day? Actually one knows nothing. What the brain-washers count on is the popular feeling that "I want to be on the side that wins."

Why? Does the winner want to be on your side? The whispering campaign ignores that question. It recognizes old cliches: "Everybody loves a winner." Just get it into the people's minds that Jones or Smith or Schmaltz is a winner and the so-called independent vote, that is those who cannot make up their minds on principles but say that they vote for men about whom they know nothing, will go with the winner. Test this at home. Say to your young daughter who two generations ago would have been spanked for smoking: "Why do you smoke Hi-Lo cigarettes?" She will answer: "All the kids smoke them. Gee, Mom, don't be a square."

So it is in politics. If you use your brains, you are controversial. If you think, you are a square. So you might as well vote for the winner. Who's the winner? The guy whose advertising agency or public relations firm or policy relations firm (that's a new gimmick) succeeds in giving the impression that its man is the one who cannot lose.

(This article is written after I have received several telephone calls attempting to brain-wash me about who the winner is going to be. I should worry between Mr. Mutt and Mr. Jeff.)

Glandular Fever Appears on The Rise Among Children

BY EDWIN P. JORDAN, M.D.
Written for NEA Service

Mrs. H. writes that her 7-year-old son has had infectious mononucleosis for the second time, and that following this they can't seem to get him completely back to normal. She adds that the doctor says many cases of this disease have developed in high school boys and girls.

This disease, also known as glandular fever, is indeed common among children and young people and seems to be getting more so.

Recurrences and relapses, while they have been reported, are fortunately not too frequent. The experience of slow recovery, however, is by no means unusual. But generally speaking, recovery without serious complications can usually be expected in time.

This is a curious disase. It is probably the result of an attack by some virus, but it offers some problems in diagnosis. The symptoms it produces are not always alike, and the course it takes may vary from an extremely mild illness to one which is quite incapacitating.

At the onset infectious mononucleosis may produce symptoms much like those of other conditions: sore throat, loss of appetite, vague pains and a general feeling of distress are common. There is likely to be a low fever.

Symptoms such as nausea, vomiting and pain in the abdomen are by no means unusual. Enlargement of the lymph glands in the neck and other parts of the body are frequent. It is this which gives it the name, glandular fever.

It is the blood, however, which shows the changes which make the diagnosis. The number of white cells in the blood generally is increased. When the blood is smeared on a glass slide, stained and examined under the microscope, it usually shows a peculiar type of cell which was once called a "monocyte," and which is responsible for the "mononucleosis" part of the name.

Except for these cells and a complicated special test of the blood called the heterophile antibody test, the symptoms of infectious mononucleosis are similar to a great many other conditions. For this reason the diagnosis is often long delayed and sometimes not made at all.

In most cases complete recovery comes after a few weeks. In some, however, fever and a-run-down feeling lasts for months. Occasional serious complications have been reported, but these are the exception.

A really good treatment for infectious mononucleosis has not been developed. One or more of the newer antibiotics may prove helpful, but this is by no means certain. Rest in bed and treatment of the symptoms is about the best we can do as yet.

What concerns the medical profession particularly is the possibility that this disease may become more severe and more common as time goes on.

Possibility of Tripping Over the Little Fellow

Washington News

By PETER EDSON
NEA Washington Correspondent

WASHINGTON — (NEA)—Vice President Richard M. Nixon's complaint that some Eisenhower cabinet members aren't doing right by the Republican party in this campaign is well borne out by a look at the honorable secretaries' schedules.

Only three of these good men have come to the all-out aid of their party. They are secretaries Ezra Taft Benson of Agriculture, Fred A Seaton of Interior and James P. Mitchell of Labor.

Two cabinet members seem to have run away from the campaign—on official business, of course.

Secretary of Treasury Robert B. Anderson, who was a Texas Democrat before he became an Eisenhower Republican, flew to the World Bank's annual meeting in New Delhi, India, in early October. He's returning by way of Ceylon, Hong Kong and Tokyo. He's due back in Washington Nov. 1. He voted by absentee ballot. He has made no political speeches.

THE OTHER POLITICALLY tongue-tied member of the cabinet is Defense Secretary Neil H. McElroy. He left Washington Sept. 27 for a trip of inspection around the world, hitting Formosa, Tokyo, Bangkok, Karachi, Teheran and Athens. He's due back Nov. 5 day after election. They aren't likely to tap him for a political talk then.

This business of making cabinet members play politics harder isn't a new issue in the administration.

Former Gov. Howard Pyle of Arizona, as White House aide in charge of relations with the states, tried to recruit the secretaries for campaign speeches right after Labor Day. He got turndowns from Dulles, McElroy and Anderson on the grounds they wanted to keep their jobs above politics. This in spite of the fact that foreign, defense and fiscal policies have been hot campaign issues.

SECRETARY OF STATE Dulles is making six speeches during his campaign. None is considered political. He'll wind up Oct. 28 before Pilgrim Society in New York.

Secretary of Health, Education and Welfare Arthur Flemming joined the cabinet Sept. 1, and hasn't had time to get his feet wet politically. He has made a few speeches on education. But he'll speak at a Cleveland rally Oct. 29.

Postmaster General Arthur E. Summerfield, GOP national chairman in 1952, has a good alibi for not being able to campaign as hard as he used to, following an illness and operation. He is making only four political appearances this year, ending at Rep. Charlie Halleck's get-together in Rensselaer, Ind., Oct. 30.

Attorney General William P. Rogers will have made only seven political speeches when he closes the campaign Oct. 29 in Miller, S. D., and Oct. 30 in Minneapolis.

Secretary of Commerce Sinclair Weeks, 65 and seriously considering retirement from the cabinet, hasn't been able to hit the campaign warpath as hard as he used to. But he has scheduled 15 political speeches. He'll finish the campaign Oct. 28 in St. Louis, 29 in Charleroi, Pa., 30 in Milwaukee and Nov. 1 in Worcester, Mass., his home state.

THE RECORD OF THE three star performers is Secretary Mitchell, 28 speeches; Secretary Seaton 34, and Secretary Benson 36. They have made two and sometimes three meetings a day.

Mitchell's final appearances will be Oct. 27 in New York, 28 in Minneapolis. Seaton will hit Boston Oct. 27, Indiana, Pa., Oct. 30, and Milwaukee Oct. 31.

Benson has seven speaking dates in the last week of the campaign: Worland, Wyo., Oct. 27, Las Vegas and Reno Oct. 28, Ogden and Salt Lake Oct. 29, Pocatello and Idaho Falls Oct. 30. Clean living lets a man do that.

Other last-minute speeches may be scheduled for Nov. 1, 2 or 3. But the general feeling is that these days should be left for local candidates to make their last pitch.

The idea is that candidates this year don't seem to be riding coattails as hard as they used to.

Also, national TV and radio shows on election eve cover a lot of areas where there are no gubernatorial or senatorial races. And they cost money which the GOP doesn't have this year.

Twenty and Ten Years Ago

Oct. 30, 1938—An overly realistic radio dramatization of "War of the Worlds," written by Howard E. Koch, formerly of Kingston, stirred panic in areas of the nation.

Authorities made final appeals for an orderly observance of Halloween.

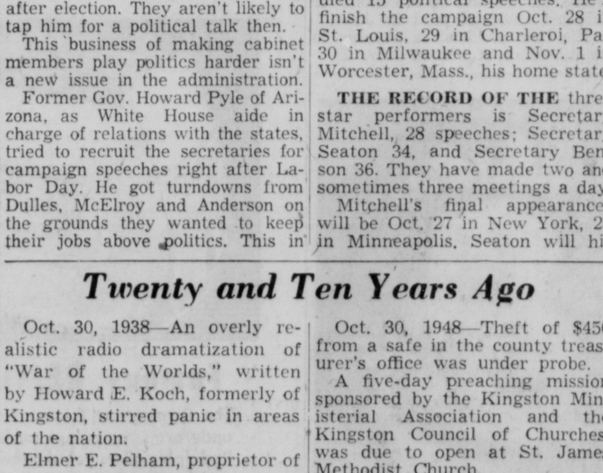

Mrs. Carrie A. Markle died at her High Falls home.

Oct. 30, 1948—Theft of $450 from a safe in the county treasurer's office was under probe.

A five-day preaching mission sponsored by the Kingston Ministerial Association and the Kingston Council of Churches, was due to open at St. James Methodist Church.

A house on the Sam May farm, Berme Road, near High Falls, was destroyed by fire.

City and county draft boards were ordered to send 51 men for pre-induction examinations in 10 days.

Congress Election Called Most Important in 50 Years

By DAVID LAWRENCE

WASHINGTON — Next Tuesday's election of a new Congress is the most important in a half-century. On the outcome depends whether America, after a brief period of boom will gradually head into a depression worse than anything experienced in the 1930's.

Confidence — the basic influence in business expansion and especially in the building of new plants—may be, temporarily at least, shattered when the election result is finally tabulated, if it turns out that a Democratic landslide in the North has taken place. Will there be a scramble to build plants quickly under present prices, for fear that runaway costs will follow in the next year or so as inflation picks up more and more momentum? Or will business adopt a "wait and see" attitude?

Faith in Conservatives

If the even-up battle between Republican party and the Democratic party in the North in recent years shows this time a sharp decline of Republican strength and the rise to supremacy of the radical faction of the Democratic party, many businessmen will wonder what the long-range trend is going to be—higher and higher wages with higher and higher prices and then a crash as a buyers' strike ensues?

For the thirteen years since World War II, the business men of the country have had faith in the effectiveness of the coalition of conservative Democrats of the South with the conservative Republicans from the North in preventing unsound legislation. In both parties in Congress the conservative representation will be diminished—if the advance surveys are borne out.

Labor-Leaders' Power

As the voters go to the polls this time and elect Democratic candidates for Congress, they have been told very little about the conservative versus radical problem and what it means to them as individuals in the future. Millions of voters with fixed pensions—in states like California — are apparently not aware of the dangers to them in the coming decline of the dollar's purchasing power when the radicals take command. Certainly very little has been told the voter about how the new bosses of the Democratic party in the North—the leaders of the labor unions who have put up most of the money for the Democrats in the present campaign—can be expected to dictate to the newly elected Democrats the course of economic legislation.

Business men who know the facts of life in politics are worried. They see a Congress dominated by labor-union influences. If, even after the revelations about racketeering in unions, the electorate still votes against the "right to work" principle and in favor of labor-union monopolies, there will be added discouragement throughout the business community.

Political Milestone

This election may prove to be a milestone in the history of American politics. The die may be cast for more and more socialization of the economy.

A healthy economy would, of course, absorb the unemployed by creating more and more new jobs. But a labor-union-controlled economy, with prices fixed by the unions themselves at levels that the buyer must ultimately resist, is not going to bring more employment. It will mean less employment and also less and less profits for the corporations out of which the government can collect tax revenues.

One of the first things the radical Democrats may propose is higher corporation tax rates and increased levies on the middle and upper-income groups. Something like this will be urged as a way to overcome the big Treasury deficits. Certainly if profits in business go down and tax revenues from corporations decrease, there will be only one way to increase Treasury receipts—by higher individual income taxes. Even the lower-income groups may not escape some upward hike of taxes.

The Real Issue

It all comes back to a sound economy. The real issue in the current campaign is between a sound conservatism and an irresponsible radicalism. Many Republicans called "modern" have been flirting with the radical side for the last three years, and some have become disillusioned. This is natural because the radical Republican has found scant support among the Democratic voters and hence little net gain for his so-called "modern Republicanism." In fact, the defeat of many Republicans in Congress this time will be largely due to the stay-at-home attitude of millions of conservative Republicans who have been antagonized by some of the "modernist tendencies of the Administration in the past.

There are stories being published — in "The Wall Street Journal" today, for instance — that the Eisenhower administration now regrets its course and has made a decided turnback to conservatism which will be pursued in preparation for 1960, irrespective of the outcome of next Tuesday's election.

Call to Republicans

It doesn't look that way, or like teamwork either, when the Secretary of Labor openly campaigns, as he did this week in the Middle West, against "right to work" laws, contradicting both the President and Vice-President, who avoided the issue in California by calling it "local."

It is not too soon for the Republican party to begin to mobilize and harmonize all its factions for the big battle of 1960. For the 1958 election results will show the effects of the internal struggle between conservatism and radicalism inside the Republican party. Sometimes a defeat provides the sinews for a subsequent victory.

DO YOU REMEMBER

By SOPHIE MILLER

Every hobby has its magazines, pictures and it all cost money. Tom Walsh of 37 Boulevard has a fine collection of magazines, books, photographs on old cars and has been loaning some of these to me. One of his magazines which I think cost $1.00 an issue is called "The Bulb Horn, Vol. XIX, Summer 1959, No. 3 published by the Veteran Motor Car Club of America of 15 Newton Street, Brookline, 46, Mass. I notice there are advertisements from local residents and I see one from across the river in Rhinebeck.

It seems this magazine allows certain advertisements free to VMCCA members only as long as they are about cars 1929 or older. There is mention of a Mercedes Benz, 1927 Model K, touring. A 1919 4-cylinder Maxwell speedster, restored, asking price $600. A 1917 Pierce Arrow, 38 horsepower, gentleman's runabout, price $4,000. They say in advertisement that this is a rare car and the restoration cost them $4,500. It seems parts for these old auto are not for free, even if you do find a good old car in running condition it is expensive to doll it up.

There is an advertisement on a 1902 "Pierce Arrow" two seat tiller steer, one cylinder. Fine condition with original top. Very good new tires, all complete, price $3,500. A 1906 two cylinder Buick, 5 passenger, completely overhauled, nothing missing, five brass lamps, horn and windshield, priced at $3,500. One advertisement just wants his restoration money back in doing over a Simplex (Crane) 1915 Brewester, seven passenger touring car, restored to perfect, July 1958. It cost him $5,000. He has a Rolls Royce, Silver Ghost, double windshield, perfectly restored which he is willing to sell for $7,500. He spent $9,300 on it.

On another page members ask for parts like, old bulb horns in any condition, nickel or brass. There are new rubber bulbs and reeds for $2.50 each, brass tubing, brackets, fitting etc., for horns, all makes. A member wants parts for a 1911 Cadillac touring car. Another one is looking for parts for a 1929 Franklin. Another advertisement tells about racoon coats for sale which have been cleaned and sanitized. There are advertisements from restorers of old cars. They even have a special insurance for antique automobiles to provide proper protection.

They have a whole page describing method for storing antique cars. They treat it with such care it is difficult to imagine. For instance "if the car has been in operation during the summer, probably the brass or nickel plated parts are in good condition, however, it will not be a waste of time to go over them again, and then immediately cover all parts possible, such as horn, lamps, ect., with plastic bags tying them tightly to exclude air. Nickel parts need polishing just as much as brass, but if nickel is once permitted to become really dull it is much harder to bring it back to a bright finish. To preserve the nickel finish it may be coated with a light smearing of petroleum jelly (vaseline), applied with a soft cloth. This coating can be easily removed with a little naptha or mineral spirits. Needless to say, the whole car should be clean and free from mud or grease and finally if possible covered completely. A vinyl plastic cover is a good investment." They mention Catskill Mountains in this book and a covered bridge at Cornwall.

In the American colonies, restrictions upon voting were very severe. Only owners of property, and in some colonies only landowners, could vote. There were numerous religious qualifications. The payment of taxes conditioned the right to vote in Pennsylvania, Delaware and Georgia. During the first years of the United States fewer than one-fourth of the population could qualify.

Teach Children to Climb To Your Side of Fence

The problem of steady dating in most families puts the parents on one side of the fence and the teen-age members of the family on the other.

Since modern parents can't bear to be on the opposite side of any fence from their children, even temporarily, the parents usually make some such remark as, "All right, you can go steady. But I still don't approve of it."

Whether the fence is raised by the question of steady dating, late hours, or the teen-age demand to be allowed to do what "all the other kids" get to do, parents today are making a big mistake in not sticking to their side of the fence when they know it is the right one.

There have always been fences between kids and their parents. There were when I was growing up. In fact, I remember quite a few of them.

The difference is that parents of a generation ago weren't so quick to hop over the fence in order to make their children happy.

If they believed they were right they stood their ground on their own side of the fence and said, "No you can't, and there's no use arguing" or "When you're older, but not now."

Another attitude: "If you're going to sulk because you can't have your way, go to your room and keep yourself company. When you feel like being good-natured come back and join the family."

In time the storm passed, and the momentarily frustrated adolescent climbed over the fence to be with his parents. He didn't say "You're right." He probably didn't even think it until years of living taught him respect for the firm convictions that gave substance to his parents' love for him.

But the important point is, he climbed the fence, and adult standards and opinions ruled the family. Now the parents climb the fence and then ask each other, "I don't approve, either—but what can you do about it?"

You can, of course, keep your feet on firm ground and stick to your own side of the fence—the side that experience has taught you is the right one.

Vote-Getter Talents on Line

Success of GOP at Polls May Tell Nixon's Chances in 1960

By STERLING F. GREEN
Associated Press News Analyst

WASHINGTON (AP) — Vice President Richard M. Nixon, determinedly striving to push the Republican elephant into a stretch gallop, has found the going heavy and the footing slippery.

The durable Nixon was showing fatigue and irritability when he stopped here between tours this week. He had taken some rude blows. He was obliged to defend and explain the damaging words and actions of other Republicans. And he had seen new threats develop to his own political future.

Temper Frays Out

His temper frayed out in Minneapolis, where he barked an angry denial to a charge that hadn't been made—that he had avoided a stand on civil rights. Earlier, in Chicago, he had glared at a photographer who miscalled him "Mr. Truman." The impolitic glare was captured on film.

As the vice president took off Wednesday for a final grueling, hop-skipping tour to Illinois, Iowa, Kansas, Montana, Washington state and Alaska, it seemed to some of his supporters that sheer bad luck was dogging his footsteps.

For Nixon, a record of success in this campaign is important to his own presidential aspirations in 1960. Any outcome short of a Democratic sweep could be credited partly, at least, to his talents as a vote-getter.

Certainly his efforts have helped to revive dispirited Republican organizations in many spots. Further, he has helped to add more than a million dollars to GOP finances by his fund-raising appearances and his personal efforts.

Shift in Doubt

But there was still doubt whether any significant shift in voter sentiment has been wrought by Nixon or by President Eisenhower in their strong attacks on "radical" and "spendthrift" opponents.

An Associated Press check across the country indicated that neither the Republican headliners nor their opposite Democratic numbers, former President Harry S. Truman and Adlai E. Stevenson, had changed the minds of many voters.

So it was uncertain whether, as Nixon proclaimed in Lincoln, Neb. and elsewhere, the GOP has rebounded from what looked like sure defeat and that the campaign has become a brand new contest.

Neither Nixon nor Eisenhower, it became apparent has succeeded in healing the seemingly ruinous split of the top California Republicans, Sen. William F. Knowland and Gov. Goodwin Knight. The intraparty bitterness could do nothing but damage to Nixon's party in Nixon's state — and to Nixon's prestige as a leader of the state GOP organization.

And suddenly an alarm bell rang in a state which may be even more vital to Nixon's 1960 aspirations. The political pollsters decided that personable Nelson Rockefeller has edged to the fore in the New York governorship race against Gov. Averell Harriman. All Republicans could cheer, but what would the emergence of this new political phenomenon do to Nixon's chances for the nomination two years hence?

Rockefeller's gains owed nothing to Nixon. Would a Rockefeller victory give the party a potential new standard-bearer?

Incidents Plague Him

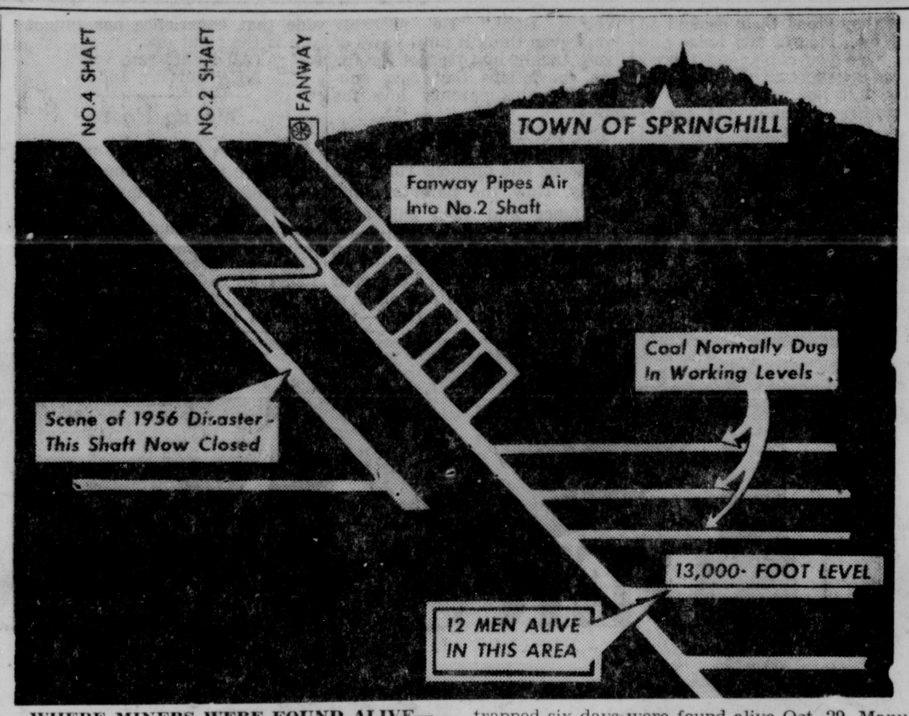

Other incidents plagued Nixon. The Gallup poll people issued a late-campaign report; it spoke of a Democratic landslide. How come this, asked reporters, if Nixon's optimism was justified? Nixon said that hard work could change the outcome, and that the poll results already were outdated.

And why didn't Eisenhower—or if not the President, somebody else at the White House—receive the leaders of the thousands of Negro and white students who staged a pro-integration rally in Washington last Saturday? Nixon's associates did not disguise their view that the White House had goofed.

And why did Rep. Patrick J. Hillings (R-Calif) have to choose this crucial fortnight to remark that "on Nov. 5 Dick Nixon will assume the mantle of leadership of the Republican party?" Nixon, who has tried to keep his own aspirations out of this campaign, denied it.

The vice president is a fighter who fights hardest when the battle is roughest. He'll be punching, right up to election day. But if he didn't know before, he must now realize that the tides of politics are treacherous indeed.

Marketing Report Shows More Bulk Milk Being Sold

By B. L. LIVINGSTONE

WASHINGTON (AP) — The American housewife, with a shopper's nose for economies is showing a steadily increasing preference for bulk milk purchases.

The growing switch in her buying habits is reflected in an Agriculture Department marketing report showing another rise in the volume of milk sold in gallon and half-gallon lots during the April-June quarter of this year.

It is a shift in a household milk purchasing that has been in process a number of years, and which now appears to have established a trend away from the familiar quart milk bottle.

Up 21 Per cent

For the April-June quarter, the report states that the quantity of milk bought in gallon and half-gallon containers rose 21 per cent over the comparable period last year, while the volume of milk bought in single quarts fell 9 per cent.

The figures now show that bulk milk purchases for home use currently approximate the volume of milk sold by the quart—about 1,900,000,000 quarts in each category for the three-month period.

A factor undoubtedly favoring gallon and half-gallon containers is price.

Saves Nearly 6½ Cents

Based on the national average price of milk, the housewife saved nearly 6½ cents a quart on milk bought in gallon and half-gallon lots as compared with the price of single-quart purchases.

The increasing use of milk in bulk containers does not mean, however, that the quart milk bottle is likely to disappear from the domestic scene.

Almost half of all milk purchased by consumers in the April-June period was delivered at home by the milkman. In fact, home deliveries were up 8 per cent from a year ago with two out of every three quarts delivered in single quarts.

The biggest shift to gallon and half-gallon milk purchases in the past year was registered in New England, the Middle Atlantic states and the District of Columbia as a region. Half-gallon purchases rose 56 per cent, gallon purchases 63 per cent.

110 Are Nabbed In Drug Raids

NEW YORK (AP) — Narcotics squad detectives arrested 110 men, women and juveniles in a 19-hour series of raids that ended at 2 a. m. today.

Those arrested were charged with narcotics violations including possession; possession with intent to sell, and possesion of apparatus such as hypodermic needles.

Inpector Edward F. Carey, in charge of the raids in Manhattan, Brooklyn and The Bronx and Queens, said they came after more than three weeks of investigation.

Two detectives were injured slightly in making arrests in Manhattan.

One of those arrested was identified as Mrs. Zina Barker, 26, of Manhattan, a night club stripper billed as "The Princess." She was charged with possession of Marijuana cigarettes with intent to sell them.

Detectives said they purchased heroin from a 15-year-old boy at a Manhattan intersection. He was charged with juvenile delinquency.

Wasn't Fish

NORFOLK, Va. (AP)—Some anglers thought they felt a slight tug. Others didn't, but also lost their hooks. A $10 fine was suspended by Judge Savory E. Amato when an 18-year-old skin diver with a pair of scissors promised that the next time he went down to the sea in flippers it would be in a secluded spot.

Why We Say--

LEFTHAND: It may be an insult to lefthanded people, but the word awkward was coined as a description of lefthandedness. The meaning of "awk" formerly was lefthanded . . . thus anyone who primarily used his left hand was considered "awkward."

Favors Double Deck Span Across Gorge

NIAGARA FALLS, Ont. (AP)—Retired contractor Alonzo B. Robertson has suggested a double-deck railway-auto bridge across the Niagara River gorge to eliminate grade crossings and relieve traffic congestion in this border city.

The project will be studied jointly by the city and Stamford Township councils. Robertson said the new span would make it possible to dismantle the Whirlpool Rapids and New York Central bridges.

The top deck would carry rail and truck traffic and the lower one automobiles and pedestrians.

Griffis Squadron Among Winners in Air Force Tests

TYNDALL AIR FORCE BASE, Fla. (AP)—The Air Force crowned its kings of fighter interception today and marked an end to its first aerial competition to be watched throughout by television.

Lt. Gen. Joseph H. Atkinson, commander Air Defense Command, Colorado Springs, told the teams that performance of personnel and weapons systems during the meet "prove to everyone that the Air Force possesses tremendous air defense capability for defense of Western World."

Lt. Gen. Dean C. S. Strothers, deputy chief of staff for operations, presented trophies to winning teams. He also awarded individual trophies to team captains with top personal scores.

The winners, in most cases closely decided, included:

Category 1, Northrop F89J Scorpions firing practice versions of the Genie atomic rocket—465th Fighter Interceptor Squadron of Eastern Air Defense Force, Griffiss AFB, Rome, N. Y., 39,500 points.

Among individual winners was Col. Frank J. Keller, Trenton, N. J., leader of the 465th. Keller tied with Col. George F. Ceuleers, Bridgetown, N. J., captain of the Western Air Defense Force's 84th Squadron team, Hamilton AFB, Calif., with 25,400 points at the end of competition. In an extra inning mission, Keller scored a bullseye to raise his total to 32,900. Ceuleers missed, and added only 100 points for getting his plane up.

GM and UAW Are Cleared Away On Local Strikes

DETROIT (AP) — After four weeks of production paralysis, General Motors and the United Auto Workers Union are cleared away on local strikes.

Only one walkout remained in a GM plant today, a strike of 4,000 employes represented by the International Union of Electrical Workers at a Delco appliance factory at Rochester, N. Y.

The last of the UAW strikes ended with an assist from UAW President Walter Reuther.

After production workers refused to ratify a proposed agreement on local grievances at the GM Fleetwood plant in Detroit, Reuther ordered them to go back to their jobs while negotiations continued.

The 3,800 UAW members at the plant withdrew their picket line Wednesday, and said they would report for work today.

Although Reuther gave his blessing four weeks ago to a wave of local strikes over plant grievances, his intervention in the Fleetwood strike was in line with a plea last week for hurry-up efforts to get back to work.

GM was shut down Oct. 2 when the UAW called a companywide strike, to back up its demands for a new national contract agreement.

After the national settlement was made with the strike 12 hours old, the locals stayed out pending agreement on plant grievances.

GM was out of production 2½ weeks before resuming partial operation as settlements in the 124 UAW plants trickled in.

The IUE, which represents 25,000 workers in six GM plants, struck the same day as the UAW. It also permitted its locals to remain on strike after settlement on a master contract, pending agreement on plant grievances.

Ad Campaign

STOCKHOLM (AP) — The Swedish Lutheran National Church and the Free Churches of Sweden are spending some $20,000 on newspaper and other advertising in a campaign to increase church attendance. As part of the campaign, the churches plan newspaper ads each Saturday, including scriptural passages pertinent to the problems of modern man, and an appeal for church attendance.

Resettlement

NEW YORK (AP) — Church World Service, the relief agency of the National Council of Churches, is planning to resettle in the United States 6,000 Dutch refugees from Indonesia.

Upstate Mayors To Ask Priority On Defense Work

SCHENECTADY, N. Y. (AP)—The mayors of seven eastern New York communities are seeking "priority consideration" from the federal government in the assignment of defense contracts.

The communities, most of them in the Mohawk Valley, are Schenectady, Oneonta, Gloversville, Richfield Springs, Johnstown, Amsterdam and Indian Lake.

The mayors also want "favorable consideration" of the area for long-range development of peaceful atomic power projects.

In addition, the mayors or their representatives agreed Wednesday to petition for a law that would give federal aid to communities suffering unemployment. The group met here to form a regional employment conference.

The mayors said their area was a "natural" for nuclear development because it contained an atomic installation at West Milton, The Knolls atomic power laboratory, the General Electric Company's atomic motor division and land and water resources.

The city officials voted to make available to small businesses information about industrial development in their communities.

Gloversville, Johnstown and Amsterdam have been especially hard hit by unemployment in recent years.

Meany Says Labor Has No Aims to Run Government

NEW YORK (AP) — AFL-CIO President George Meany says organized labor is dedicated to strengthening the free enterprise system and has no ambition to run the government.

He says charges that unions are trying to control the government or push it toward socialism are "a political scare balloon."

Meany stated his defense of unionism Wednesday night in a talk on the CBS radio network.

He did not use the word "Republican" or "Democrat" in his talk. Nor did he make any direct criticism of any political figure.

Meany said:

"No group is more convinced than American labor that control of government by any special interest group, such as organized labor, organized business or the organized financial interests would mean an end to the American way of life."

He said it is "utter nonsense" to say that labor wants nationalized industries and other socialist ventures. He also said that any charge that American labor is pro-Communist is an example of "the big lie technique."

Grand Jury Will Report to Taylor Friday, Nov. 7

The grand jury, which has been in attendance at the October trial term of Supreme Court, will report to Justice Donald S. Taylor, presiding justice, Friday, Nov. 7, at 1:30 p. m.

When Justice Taylor adjourned the trial term Wednesday afternoon there was uncompleted work for the grand jury and since Justice Taylor will be holding a regular special term on Nov. 7, he adjourned the trial term until that date to receive the grand jury report.

During the October trial term of the 376 cases on the calendar, 71 cases were disposed of either through trial or settlement.

Sale Ends Long Partnership of Gannett, Little

ROCHESTER, N. Y. (AP)—The Gannett Co., owner of the Gannett newspapers, today announced sale of its 51 per cent interest in the Northern New York Publishing Co. to Franklin R. Little of Ogdensburg for $375,000.

The Northern New York publishes the Ogdensburg Journal, an afternoon daily; the Ogdensburg Sunday Advance-News, the Potsdam Courier-Freeman, a weekly, and the Massena Observer, a semi-weekly.

It also owns commercial printing plants in Ogdensburg and Potsdam, and the Ogdensburg Photo-Engravers.

The sale ends a 30-year partnership between Little and the Gannett group. Little and the late Frank Gannett, founder of the Gannett newspapers, formed the Ogdensburg Publishing Co. in 1928 and bought the Ogdensburg Republican Journal from A. E. Sansoucy. The corporate name was changed to its present form in 1937 when the company purchased the Massena Observer from Leslie C. Sutton. In 1940 it bought the Advance-News from Frederick C. Kury and Joseph Brandy. And it acquired the Potsdam Courier-Freeman from the late congressman Bertrand E. Snell in 1949.

Little, who has been serving as secretary-treasurer of the corporation, now becomes president and sole stockholder. He said there would be no changes in personnel or policies.

The Gannett Co. said the sale agreement includes provision for maintaining, in substantially its present form, the retirement system in which Northern New York employes have participated along with other units of the Gannett group.

New Traffic Rules Made for Bridges

New traffic regulations for facilities of the New York State Bridge Authority were announced today and 45 toll collectors have been deputized to enforce them.

Speed limits are set at 30 miles an hour for the Mid-Hudson and Bear Mountain bridges. It will be 40 miles an hour on the Kingston-Rhinecliff and Rip Van Winkle spans. The latter formerly had a limit of 30 miles an hour.

Truck load limits are the same as those generally imposed by the state. Special permits for heavier weight loads may be applied for through the authority's administrative officer.

John S. Stillman, authority chairman, who announced the regulations, said that no permits will be granted trucks with loads of 32½ tons on the Bear Mountain Bridge. The load limit for the span was reported at 25 tons.

The deputized toll collectors will have "the full powers of peace officers" within the area of the bridge authority's property.

Full text of the regulations is contained in a 12-page booklet issued by the authority.

Blast Kills Four

CLEVELAND (AP)—An explosion rumbled through an east side factory today, killing four men, injuring four, and sending out poisonous fumes. More than a dozen firefighters were overcome.

The three-story plant of Erico Products, Inc., manufacturer of welding equipment, was the scene of the blast. The company emplovs about 100, including 40 women.

The dead were tentatively identified as Mel Redjak, a chemist; Ronald Turner, an assistant chemist and technician; Nat Handle, a laborer; and William Ramsey.

The fire department reported a copper oxide powder used in the manufacturing process appeared to be the source of the fumes.

Battalion Chief Bernard Mulcahy said there was little fire after the blast, which showered down glass and bricks.

The cost of living in the U.S. went up 72 per cent between 1939 and 1950, reports the Twentieth Century Fund.

VOTERS OF TOWN OF ULSTER

WHY WE NEED A DEMOCRATIC SUPERVISOR

1. The rapid growth and numerous problems of the Town require the leadership of a man who has a long record of attendance at Town Board meetings and an interest in Town Affairs—neither of which the present supervisor can claim.

2. The man elected to this position must be willing and able to represent the best interests of the citizens of the Township on the Ulster County Board of Supervisors—not the interests of an entrenched political machine.

3. A Democratic Supervisor is a free agent—able to vote for what he feels to be in the best interests of his constituents. He need bow to no iron-hand domination from anyone.

4. A Democratic Supervisor on the Board of Supervisors would help restore the good name of Ulster County. Revelations concerning the years of Republican domination of County affairs have left the people shocked and disturbed.

Son Drives Auto Mother Reports Stolen to Police

Local police checking on a reported car theft found it was driven to Kingston by the son of the Poughkeepsie woman who had reported it missing.

Officers Frank Stip and Vincent Eckert spotted the car last night at West Union and Hone Streets, and its driver Rufus McKennen, of 213 Smith Street, Poughkeepsie, was charged with driving without a license, but he was booked on no other charge.

City Judge Aaron Klein today put the case over to Nov. 6 when night court will be held.

Also put over to that date was the hearing of three drivers charged with speeding. They are Joseph Brandt, 19, of Rt. 4 Box 385; Paul Davis, 20, of Port Ewen, and Raymond L. Navara, of 50 Navara Street. Davis is due in court at 9 a. m., Nov. 6, and the others will appear at night.

'Breach of Trust' Topic at Rotary

Larceny and embezzlement in business establishments by person to whom too much has been entrusted were discussed by Leonard E. Reisman, chief assistant to former Senator Bernard Tompkins, assistant attorney general in charge of the probe into alleged kickbacks in Ulster County, before the Kingston Rotary Club luncheon-meeting Wednesday.

Speaking on the topic of "Breach of Trust," Attorney Resiman pointed to the lack of systematic adults, periodic checkups and other safeguards often deemed unnecessary by many small businesses as chief causes of thefts by "trusted" employes. Closer personal supervision of checking accounts by business proprietors was stressed by the speaker. A very bad practice, he said, was the signing of blank checks.

An assistant attorney of New York County under District Attorney Hogan, for five years, the speaker, who served in the complaint, indictment and appeals bureaus, referred to a number of cases from the files of that office which had come to his attention. He also described the techniques employed by the embezzlers.

Sam Pepper, program chairman for October introduced Attorney Reisman.

At Advanced Course On Life Insurance

Benjamin E. Sherman, 71 Madison Avenue, representative of the Metropolitan Life Ins. Co., has returned from New York City where he participated in a two-week training course on advanced life underwriting techniques and practices.

Topics discussed during the sessions were the newest developments in the field of estate planning for the conservation of both business and personal assets. Included was a detailed study of business life insurance for sole proprietorships, partnerships, and corporations, and for the indemnification of business concerns against financial loss resulting from the deaths of key men in the organization.

Recently, Mr. Sherman was appointed to the position of Metropolitan insurance consultant, in which capacity he will continue to be associated with the company's Kingston district office, which is under the supervision of Manager John E. Jordan.

ROCKY'S HIS CHOICE—"Sugar Ray" Robinson, world middleweight boxing champion, entered into the political "ring" with his backing of the GOP gubernatorial candidate, Nelson A. Rockefeller. Sugar Ray, who declared himself as an independent, told a crowd of over 500 persons in Harlem: "I am asking you to send this man (Rockefeller) to Albany." Photo shows Robinson holding Rockefeller's hand aloft symbolic of "The Winner."

Rodman . . .

respect of the individual.

"I have heard my father say dozens of times that there are two systems in the world." He analyzed those systems as "those who believe human beings are made to be put into a machine and those who are created by God to exist to the best of their ability.

"The Republican party is the party which gives leadership and we have a new leader on the horizon—my father."

The GOP gubernatorial candidate always "taught us to respect the value of leadership," young Rockefeller said.

"There were times, I must add, when I differed with his leadership," a comment by Rockefeller's son which drew loud laughter.

"I've known him 26 years and I'm convinced we're going to win."

Fooling Nobody, He Says

Campochiaro, who served as toastmaster, scored Harriman's approach in campaign talks to the absence of a candidate of Italian descent on the Republican ticket.

"Harriman takes the attitude, 'you have to vote for me because DeLuca is on the ticket.' That fools nobody because Harriman tried to dump DeLuca (George B. DeLuca, Democratic candidate for lieutenant governor) before the campaign started. Assure your Dad that we don't fall for it," Campochiaro said, turning to young Rockefeller.

Campochiaro noted the response young Rockefeller received in a tour of industrial plants in the city before his luncheon talk. "The news reports indicate that Rockefeller is going to win and by a substantial margin, but nevertheless we must make a great effort to give him a tremendous majority," Campochiaro said.

He noted that Rockefeller has made a superlative impression in New York City, "but it is important to get out that vote upstate."

Tufaro, who greeted Wicks as "a man who looks younger than ever and we wish him good health after a job well done," expressed his appreciation to the members of the league's local chapter, and Assemblyman Wilson.

He also introduced John Foglia, proprietor of the Ship Lantern Inn, Milton, a leading Republican in the southern part of the county, and District Attorney Raymond Baratta of Dutchess County.

Ability Main Concern

Despite optimistic predictions on a Rockefeller victory, Tufaro told league members they must be prepared "for possibly the worst weather on Nov. 4," noting that this area already had received a heavy snowfall.

The Republicans, Tufaro said, are not concerned with the nationality aspect of the state ticket. "As long as they have ability, we don't care."

He praised the Republican state standardbearer as "a man dedicated to humanity, giving of his fortune and his familly for the welfare of the peoples of the world."

Tufaro cautioned the league members to be wary of what he described as campaign literature intended to confuse the name "Columbian."

Campochiaro introduced Supervisor Fred C. DuBois of New Paltz, GOP candidate for county treasurer and Mino. Campochiaro said he had known "as a friend and attorney who appeared before him when he was city judge. I know he will give the same ability to the district attorney's office as he gave to the city judgeship and he will be a great district attorney."

Mino said the Republican party in Ulster County had been "the party down through the years that recognized candidates of Italian descent.

"The Democrats never ran anyone on a county level of Italian extraction," Mino declared.

Rockefeller's son, who has been on an upstate campaign swing speaking in behalf of his father, left here after the luncheon for stops in Newburgh and southern part of the state.

Broadway to the Route 28-Thruway interchange west of the city. This will be a four-lane divided highway 1.39 miles long with 1.19 miles of access road. Bridges will span the Esopus Creek and the mountain branch of the New York Central Railroad.

The Route 28 project involves 3.33 miles of highway and 1.47 miles of access roads. It will start at the Ulster-Delaware County line, Highmount, and will extend through Pine Hill to a point about a mile west of Big Indian. It will include a new nine-span, 591-foot long concrete viaduct at Pine Hill. The new road, portions of which will be on new, improved location, will have a 24-foot wide asphalt concrete pavement.

The contract for tree-removal involves 119 dead or dying, or otherwise hazardous trees along 9W between the Kingston City line and the Ulster-Greene County line, and along Route 212 between the Route 28 intersection and the Route 9W intersection. The bid was less than half of the state's estimated cost of $9,000.

Jobs in 22 Counties

Bids on 23 projects, estimated at a total cost of $28,578,500 were opened this morning in the state office building, Albany. They were on projects in 22 counties.

Work on the arterial route, because of the need for land taking in the city, is expected to start on a western section.

It usually takes the better part of a month for the awarding of contracts, but some preliminary work, such as land clearing could be done in the winter.

St. Patrick's Cathedral in New York City seats 4,500 people.

Nixon Returns To Corn Belt in Congress Drive

By THE ASSOCIATED PRESS

Vice President Nixon returned to the Cron Belt today as he headed west on his final bid for election of a Republican Congress in next Tuesday's voting.

Nixon, en route to a weekend of campaigning in Alaska, stopped overnight in Chicago before traveling to Fort Dodge, Iowa, and Wichita, Kan., today.

His Friday schedule takes him to Billings, Mont., and Everett, Wash., before he heads for Alaska. Voters of the prospective 49th state will name two U.S. senators and a representative in a special election Nov. 25.

Renews Suggestion

Campaigning in California Wednesday night, Democratic National Chairman Paul M. Butler renewed his suggestion that Democrats who won't support a civil rights plank in 1960 get out of the party.

Butler told a news conference at West Covina that Democrats who couldn't go along with such a plank should either stay in the party and try to put over their own viewpoint—or support a Republican ticket or a third-party movement or stay home and not vote.

Raps Into 'Radicals'

At Greenwich, Conn., GOP National Chairman Meade Alcorn ripped anew into what he called Democratic "radicals."

"Would you rather have government in the hands of the left-wing gang or see it in the hands of the Republican party?" he asked a GOP rally.

President George Meany of the AFL-CIO appeared to hit mostly at Republican campaigners in telling a nationwide radio audience he wanted to "puncture the big labor political scare balloon of 1958."

Uses No Names

But he mentioned neither parties nor candidates by name in assailing what he called campaign talk that organized labor is trying to take the nation down the road to socialism. Speaking from Washington, Meany said:

"The hidden purpose behind this cry of socialism, and such phrases as leading America 'down the left lane' is to plant in the minds of the American people the idea that labor is pro-Communist.

"This is an unforgivable and completely unjustified trick."

With the campaign going into its final days, President Eisenhower prepared to wind up his speechmaking with a nationwide radio-television talk in Baltimore Friday night.

The White House announced that the President and Mrs. Eisenhower will vote Tuesday at Gettysburg, Pa., and then return to Washington to receive the election returns.

Nixon Has Voted

Nixon voted Wednesday before flying to Chicago. Aides said he voted the straight Republican ticket on his California absentee ballot. But they declined to say how he voted on a right-to-work referendum which has divided major California GOP candidates.

Mrs. Nixon and the two Nixon daughters—Patricia, 12, and Julie, 10—fly to Seattle Friday to join the vice president for his flight to Juneau, Alaska, Saturday. It will be the first campaign trip for the Nixon girls.

The Nixons plan to fly to Fairbanks for a Monday appearance before returning to Washington.

No Opposition Given

A public hearing to gain a business zone designation for a property at 224 Fair Street as applied for by Ralph and Marian Harper, was without opposition last night. The property is to be used for the housing of professional offices. Attorney Joseph Hill appeared for the applicants at the hearing held in the city court room. It was conducted by Alderman William K. Bodenweber, chairman of the Common Council's laws and rules committee.

Wind Was Reason Ship Santa Paula Off Her Schedule

To those who wondered why the new Grace Line ship, Santa Paula, was more than an hour early in her trip up the Hudson Oct. 12 as a salute to New York State, a company official today gave the answer.

"In a word," he said, "It was the wind."

The point-to-point schedule, he noted, had been carefully worked out in advance, but "early Sunday morning, as the upriver trip began, rather stiff winds were blowing off the quarter, and this is always a problem in close waters.

Safety of the ship and her people, he said, "is always the paramount consideration, and under circumstances, Capt. Thomson, of the Santa Paula, and Capt. Leroy Coon, veteran river pilot, were concerned lest the wind, if continuing, present a difficult docking problem at Albany."

Therefore, he wrote, "although Bear Mountain was passed within 30 minutes of the time planned, on learning the prediction of increasing winds, they decided to set a course to reach Albany at high tide, 4 p. m., one hour ahead of schedule.

It was more than an hour ahead of the regularly scheduled time in passing Kingston. Many saw the ship on her return trip the next day, however, when she was more on schedule.

The letter from Lewis Leyshem, of the company, was to Joseph Kelly, city editor of The Freeman. It thanked all who showed so much interest and enthusiasm, and especially those, "who saluted the ship from smaller boats. May I say that the welcome gave all hands aboard as great a thrill as the lovely prospect of the river itself."

Gross revenue for all spans in the nine months was $1,608,773 in 1958 against $1,696,549 in 1957.

The authority noted that "The recent improvement in the volume of traffic upon the bridges, while small in relation to the third quarter of last year, denotes a change from the traffic experience of the first six months of this year, when slackened business conditions apparently had a minor adverse affect upon the movement of vehicles. The authority looks forward to continuation during the last quarter of the year, and thereafter, of the recent resumption of the upward trend in traffic and gross revenues."

Tour of Mexico By Slides Taken By 300 at Church

More than 300 persons attending the "family night" dinner of the Old Dutch Church went on a fascinating tour of Mexico by slide and lecture Wednesday evening.

The program, entitled "Come With Us to Mexico," was presented by Mrs. Arthur E. Oudemool, Miss Carolyn Myer and Paul Nowaczek.

The Rev. and Mrs. Oudemool have led caravans into the heart of Mexico for the past six summers, taking with them some 30 or 40 teen-agers each year. Miss Myer and Nowaczek have taken two of the trips.

On display in Bethany Hall are many of the fine handicrafts collected by Mrs. Oudemool during the six caravans to Mexico. Outstanding in the display was a finely executed group of clay figures depicting all the various types of Mexican people.

The color slides depicted vividly the colorful land below the southern border.

The slides and commentary by Mrs. Oudemool offered insight into the exotic culture which is modern Mexico, the close juxtaposition of wealth and poverty, the fabulous architecture which rose from Spanish and Aztec origins, the teeming and colorful life of the marketplace, village and city, something of the vigorous, powerful work of its 20th Century artists, including Rivera and Orozco, and many other facets of life below the Rio Grande.

MoreBlastingCaps Reported Missing

Local police were notified yesterday that blasting caps were missing from the property of the State Department of Highways, Quarry Street.

Earlier this week the Ulster County Highway Department reported the theft of 100 sticks of dynamite and five boxes of caps from magazines on the department's property west of Dietz Stadium.

Both are under investigation by officers Charles McCullough and William Slover.

Financial and Commercial

NEW YORK (AP)—Stock market prices churned near their all-time high in heavy trading early this afternoon. Gains and losses of fractions to a point or so prevailed among leading issues.

The market was strong at the start with steels and motors setting the pace. First-hour volume was 1,100,000 shares, one of the best this year. The ticker tape ran late.

The improving trend of corporate reports and renewed optimism pushed the market toward high ground. Precautionary profit taking halted the advance.

Among encouraging reports was news that incoming orders of manufacturing firms in September topped the year-earlier level for the first time in 1958.

U.S. Steel and General Motors, which reported an encouraging earnings trend this week, were up fractions on big blocks at the start. GM remained ahead but U.S. Steel erased the gain and showed a net loss of around a point.

Many other popular issues canceled gains and showed minus signs. But plenty of gainers remained.

Ahead a point or more were Lukens Steel, Boeing, Goodyear, Goodrich and Loew's. Consolidated Coppermines remained ahead about a point while Cerro de Pasco erased a fractional gain following word the latter plans to acquire Consolidated.

Parmelee fell about four and Checker Motors more than three as the Checker president denied rumored plans to sell taxicab licenses held by affiliated companies.

American Motors was off about a point.

U.S. government bonds drifted lower.

Rescued Miners

cue crews dug through about 60 feet of debris. Then a hole appeared in the wall of rubble that had trapped the men and the rescuers appeared.

May Find Others

"We were all so happy to see them the whole bunch of us just started to cry," Guthro said.

The rescue raised hopes that other pockets of survivors would be found in the depths where 55 miners still are missing.

Their rescue brought to 93 the number saved. Twenty-six bodies have been recovered. There were 174 men below when disaster struck.

The news Wednesday that the 12 men had been located alive electrified the town, scene of two mine disasters in as many years. Church bells rang. Horns honked. Stores emptied. Families came running to the mine in a drizzle of rain, hoping and fearing.

Among them were those who already knew their men had died in the mine.

Even as they waited two more bodies were brought out from elsewhere in the mine.

Kempt already had whispered to his nephew Percy Weatherbee, the man who had tapped the air line with his pick, the names of the men trapped with him — Holloway, Brine, Leadbetter, Hunter, Rushton, Milley, Michniak, Maddison, Lowther, Guthro, McDonald.

"I asked 'How are you?' and Gorley answered, 'We're good but we need water badly,'" Weatherbee reported.

The rescuers, some near exhaustion from almost continuous efforts since Thursday, dug again with superenergy.

They clawed and picked at the nearly 60-foot-thick barrier of upturned stone and debris.

As the men dug, warm coffee braced with sugar and vitamins was poured down the air line to the thirsty, trapped men. Finally a narrow passage was opened and shored up and the imprisoned men began to crawl out.

Rescurers Exhausted

Slowly the conveyor rake which normally brings up the coal began to turn, this time to bring the rescued men to the surface. There was an unexplained halt for a time, then, at 2:20 a.m., some 13 hours after the discovery, Kempt was the first man brought out.

Completely covered with a blanket to protect him from the weather and to shield his eyes from the glare of television and newsreel spotlights, he was carried to an ambulance and rushed to the hospital. Waiting at the pit head were his wife and two teen-age children.

The crowd cheered wildly.

The big wheels of the cable-operated conveyor moved at an agonizing pace for the crowd.

Rope barriers kept them back. Floodlights bathed the scene. Doctors waited.

Finally, an hour after Kempt was brought out, the man-carrying rake arrived at the top with Joe McDonald, who had suffered a broken leg, Theodore Michniak and Eldred Lowther.

Then in succession came Bowman Maddison, Levi Miller, Caleb Rushton, Wilfred Hunter, Hugo Guthro, who also was injured, Harold Brine, Joe Holloway Jr. and Larry Leadbetter.

All Are Conscious

The last four were carried out at 4:02 a.m.

At the hospital the rescued men were given plasma and Dr. J. G. B. Lynch, chief medical officer for the Dominion Steel and Coal Corp., reported all were conscious.

"Most of them are just lying there, smoking cigarettes and enjoying the feeling of being human again," he said. "Nothing but their great stamina pulled them through the ordeal."

Rumors spread during the rescue operation that other pockets of survivors had been contacted, but officials of the company said they could not confirm these.

May Call Witnesses

Attorney Haver, at the end of last week's sessions, was granted permission to call rebuttal witnesses, in the event all remaining counts are not dropped, and they will be in readiness for next week's meeting.

Among dismissed specifications was one dealing with the charge that Murphy drank while on duty. Decision was reserved on the charge that he drank while off duty, and on counts pertinent to alleged improper action in an investigation of a reported burglary at Prim-Rose Sportswear, 83 Smith Avenue.

Transcripts of remaining testimony were discussed at last night's meeting.

The meeting next Thursday is due to open at 6:15 p. m. in the mayor's office.

Farmer Fatally Shot As Hunter Stumbles

SPRINGVILLE, Pa. (AP) — A farmer was killed accidentally Wednesday by a blast from a hunter's shotgun.

The victim was Erlis C. Snales, 58. Police said he was standing on his property, which is near the New York State line, when hit.

A party of three hunters had approached Snales, police said.

One of the hunters, Harry Podolik of Edwardville, stumbled. His gun went off. The blast struck Snales.

Stuart M. Holmes, Susquehanna County coroner, gave a verdict of accidental death.

Realtors Stress Opposition to Housing Projects

ROCHESTER, N. Y. (AP)—The City Real Estate Board meets today to intensify a campaign against what it calls socialized housing in the state.

The board is opposing Propositions 1, 2 and 3 and Constitutional Amendment 2 which will be put before the voters in next Tuesday's state election.

Board President William C. Kane told reporters Wednesday that the four measures "would authorize an additional state debt of $200,000,000 to build more socialized housing and provide for the giveaway of $500,000,000 of taxpayers money to pay part of the rent for housing project tenants."

"With these measures they are seeking to raise the income limits up to $10,000 a year in some cases (for) tax exempt public housing."

The board's position also has the support of James Finke of Albany, research director of the Citizens Expenditure Survey, who is scheduled to address today's luncheon.

Finke has urged defeat of the same measures saying that the state was in unfair competition with private builders and that it should get out of the housing construction business.

Proposition 1 would authorize the state to sell $100,000,000 in bonds to provide money for loans to municipalities for slum clearance and low rent housing.

Proposition 2 would authorize sale of another $100,000,000 worth of bonds for loans to limited profit housing corporations for middle-income housing.

Proposition 3 would allow the state housing commissioner to make increased subsidies to municipalities for slum clearance and low rent housing projects.

Amendment 2 would extend from two to five years the time limit for repaying money borrowed by the state in anticipation of the receipts from the sale of bonds already authorized.

ECONOMY

LIBERAL

DEMOCRAT

JOHN J. SCHICK
For District Attorney

There is, perhaps, no power on earth that can measure the effects and influence of ULSTER COUNTY POLITICAL BOSSISM AND CORRUPTION ON THE LIVES OF OUR PEOPLE—PARTICULARLY OUR YOUTH.

We like to point to our public officials as people whose IDEALS brought them acclaim and success in their chosen fields and professions.

What do we say—and how do we answer when YOUTH asks: WHAT ARE KICKBACKS and WHY KICKBACKS? WHY SPECIAL INVESTIGATIONS? WHY SPECIAL GRAND JURIES? WHY SPECIAL PROSECUTORS AND SPECIAL JUDGES? WHO EVER PERMITTED THIS CORRUPTION TO REACH OUR LAW ENFORCEMENT AGENCIES? ALONG WITH HAVING A BIRTHPLACE, DOESN'T ALL OF THIS CORRUPTION AND SCANDAL HAVE ITS BEGINNING WITH P-E-O-P-L-E? WHO ARE THESE P-E-O-P-L-E?

We owe everyone the answers—PARTICULARLY OUR YOUTH. YOUTH must be told that when a public official falters it is then that Youth's IDEALS are under fire, and that we, their elders, will fight side by side with them to clear the atmosphere lest, perhaps, their ideals perish in the gutters of POLITICAL BOSSISM. WE MUST ASSURE YOUTH THAT WITHOUT LAW THERE IS NO ORDER AND WITHOUT ORDER THERE IS NO LIBERTY. It is our duty to assure YOUTH that they must continue to have ideals—and what is vastly more important — THEY MUST HAVE FEARLESS AND STRONGHEARTED DEVOTION TO THOSE IDEALS. PARTICULARLY WHEN THEIR FAITH IN CERTAIN PUBLIC OFFICIALS HAS BEEN SHAKEN BY THE DISCLOSURE THAT THEY HAVE BEEN CHARGED WITH STEALING TAX DOLLARS IN THE FORM OF KICKBACKS AND OTHER FORMS OF CORRUPTION.

WHEN A PUBLIC OFFICIAL "SELLS" HIS VERY "SOUL" TO THE BOSSES, THE INEVITABLE RESULTS ARE CRIME AND DELINQUENCY, KICKBACKS AND GRAFT, DISGRACE AND DECEIT, INSTABILITY AND IMMORALITY, LAWLESSNESS AND RECKLESSNESS—PLUS THE DICTATORIAL ABUSE OF POWER.

A DISTRICT ATTORNEY MUST BE IMBUED WITH A LOVE OF T-R-U-T-H EQUAL TO HIS LOVE OF LIBERTY. HE SHOULD HUNGER FOR THE TRUTH, AND WITH THE TRUTH TO FORTIFY HIM HIS OBJECTIVES SHOULD BE CLEAR AND THE HIGHWAY UNMISTAKABLE.

YOUTH MUST BE TOLD THAT AN HONEST, SINCERE AND COURAGEOUS UNBOSSED DISTRICT ATTORNEY CAN AND MUST CREATE THE ATMOSPHERE IN WHICH THE PROCESSES OF LAW WORK TO THE BENEFIT OF ALL.

Professor Will Return To Philippines for Year

BRUNSWICK, Me. (AP)—Prof. James A. Storer of Bowdoin College will return to the Philippine Islands for another year of teaching and study.

The college announced Wednesday that he will spend the academic year 1959-60 as lecturer in economics and industrial trade at the University of the Philippines. Storer also will aid graduate students in research and study the economic development of the islands.

He spent 1951-52 in the Philippines in a similar program. He is returning under a Fulbright grant.

Storer is a native of Watertown, N. Y.

Matter of FACT

Tin is the one metal of great industrial importance which is not found in valuable quanties in the United States. Almost two-thirds of the world's tin supply comes from Malaya, Indonesia and Bolivia. The United States imports every year nearly 100,000 tons at a cost of more than $200,000,000. The U.S. is the largest consumer of tin, using nearly half the world's production annually.

HELPING A HALL — Workmen fasten odd-shaped plaster bodies to the ceiling of the new Beethoven concert hall in Bonn, Germany, birthplace of the famed composer. Unusual ceiling design with variegated surfaces is expected to help the acoustics.

Political Foes Meet

MILWAUKEE (AP) — Republican Gov. Vernon Thomson stood outside a plant gate Wednesday and shook hands with all comers — including Wisconsin's Democratic senator, William Proxmire.

As Thomson waited in the early morning gloom for workers to arrive, a lone figure approached and the governor prepared to greet him in the best campaign style.

But as the figure drew nearer a startled Thomson faced an equally startled Proxmire.

"Oh, hello, Vern," said the senator. "Well, you were here first, so I guess I better go somewhere else." Hands were shaken all around and Proxmire headed for another plant.

Scout Pack 4 Observes Theme, Presents Awards

Seven Bobcats were registered, advancements and merit awards presented at the Cub Scout Pack 4 meeting held early this week at Fair Street Reformed Church, sponsoring institution. The Cubbing theme of the month was observed.

The meeting was opened by Den 2, Mrs. Esther Robinson, den mother, who led the group in singing "The Star Spangled Banner." A skit followed, all dens participated. While den mother, Mrs. Pat MacFadden read the old favorite, "Casey at the Bat," the Cubs enacted a very effective pantomine, complete with spectators, umpire and "Casey."

The group viewed a film from Rip Van Winkle Council, titled "Cub Scout in the Den." This film gave the new parent members and Bobcats an idea of what their boys would be taking part in when joining the Cub Scouts.

The parents held their meetting while Assistant Cubmaster Herbert Herdman conducted game time for the boys. Committee Chairman Samuel Fratoni and Cubmaster Peter Emerick led the meeting. New parents were welcomed to the pack and new members acquainted with the chairmen of the committees they had been assigned.

Following the business session parents joined the cubs for the presentation of awards.

Cubmaster Emerick and Assistant Cubmaster Herdman presented the following award:

Bobcat pins, Jon Dean Dykstra, George Jones, Jerome Nathan, John Burns, Barry Shultis, Robert Buchanan and Richard Oakley. Silver arrow on Wolf badge, William Lahl, James Page. Gold arrow on Bear badge, Thomas Davis, Dennis Robinson. Silver arrow on Bear badge, Jonathan Lown, William Halterman, Thomas Davis. Gold arrow on Lion badge Bruce MacFadden, George Nelson. Silver arrow on Lion badge, Richard Klomps. Bear badge, Rodney Williams. Lion badge, George Nelson. Gary Ballou and Richard Nardone were graduated into Boy Scouts. William Carney, Dennis Robinson and William Lahl received one year service pins.

Den 5, Mrs. Phyllis Lahl, Den Mother, closed the meeting with a request that the group join them in singing "Take Me Out To the Ball Bame." After closing the parents inspected display of a ball field, which included a score board, bleachers, bull-pen, and refreshment stand. The boys had been working on the exhibit during the month at den meetings.

Next pack meeting will be held November 24.

Noted Japanese Educator to Visit New Paltz College

Tatsuo Morito, president of Hiroshima University in Japan, will visit State University Teachers College, New Paltz, next week, according to Dr. William J. Haggerty, president of the college.

Morito will address students and faculty of the college Monday in the College Union Building lounge at 4 p. m. on the subject "Hiroshima, the Peace City." The public is invited to attend the address free of charge.

Studied Economics

A graduate of Tokyo Imperial University in economics, Morito later became an assistant professor at the college. In 1919 he was questioned and imprisoned because of a paper entitled "A Study on the Social Thought of Kropotkin." Later me became a member of the O'Hara Research Institute of Social Problems. He travelled in Germany and France in 1920 to 1923, and then returned to Japan where he established the Osaka Labor School and helped produce leaders of labor movements. After World War II he became a member of the Socialist Party and was elected chairman of its central executive committee. He also served as minister of education for the Katayama and Ashida cabinets and was twice elected a member of the National Diet. He retired from political life in 1950 and became president of Hiroshima University. In addition to his wide variety of experiences, Morito has written many books and has made numerous translations.

Morito will arrive in New Paltz Sunday afternoon, November 2, and will visit at the home of Dr. Eugene Link, chairman of the Social Science Division of the college, and also at the home of President Haggerty. Monday morning he will visit classes at the college which deal with Asia, and will lunch with professors who are teaching Asian subjects: Dr. C. T. Hu, associate professor of social science, Dr. David Kornhauser, associate professor of geography, John McAusland, assistant professor of history, William J. Gedney, professor of literature, and Hugo Munsterberg, professor of art education.

To Appear on TV

Tuesday morning, Morito will appear on a television program with Dr. Hu over Station WRGB, Schenectady, Channel 6, at 9:30. This will be a program as part of the regular series which Dr. Hu has been conducting each Tuesday and Thursday mornings entitled "Introduction to Asia."

After visits with other members of the faculty Tuesday afternoon, Morito will return to New York.

Highland Man Hurt In Crash Near Span

A Highland man was treated at Vassar Hospital, Poughkeepsie, early this morning for lacerations of the mouth suffered when he failed to make a right turn at the western end of the Mid-Hudson Bridge and smashed into the rock cliff.

Philip Iorio, 45, was proceeding west across the bridge at 12:15 a. m. at the time of the mishap.

Trooper H. C. Foster of the Highland state police reported that the car burst into flames and was completely destroyed. The fire was extinguished by the Highland Fire Department.

Halloween decorations were featured on the refreshment table which was in charge of Mrs. Joseph Jannetto, Mrs. [illegible]sen and Mrs. Vernon Wager. The next meeting, to which the public is invited, will be held Nov. 15, when Miss Hazel Steed from the Ulster County Health Association will show a film on TB.

On Saturday night, Nov. 1, the Community Club will sponsor its annual card party to which the public is invited. The committee in charge, Sherman Barley, Michael Birk, Charles Harris, Lester Judd and Vernon Wager, report plans are complete for a gala evening with awards and refreshments available. Proceeds to be used for the clubhouse maintenance.

Mr. and Mrs. Joseph E. Burger, Mrs. Robert Sickler and Mrs. Franz Fries of Kingston accompanied Franz Fries when he returned last Sunday to Nyack Missionary College after having spent the weekend at his home in Kingston. The group enjoyed supper at the college and attended evening chapel service.

Former Supreme Court Justice Backs Elsworth

A former Supreme Court justice in the third judicial district Wednesday evening appealed for the re-election of Justice Roscoe V. Elsworth to that tribunal.

Judge Joseph Rosch of Albany, a native of Sullivan County, in a television address over WRGB, Schenectady, described Judge Elsworth as "honest, industrious, courageous, a gentleman, learned in the law, and with a practical knowledge of its uses and applications."

Chairman of the lawyers committee of the third judicial district, which includes Albany, Rensselaer, Schoharie, Columbia, Greene, Ulster and Sullivan counties, Judge Rosch said Judge Elsworth has "judicial temperament."

Willing to Listen

He described that as lawyers terminology "which means willingness to listen and one whose judgment and determinations are brought about through careful and considerate thought."

Judge Rosch noted that most of the bar associations of the various counties have endorsed Judge Elsworth's candidacy "and a number advocated his endorsement by all political parties.

Unanimous Choice

"He was the unanimous choice of the Republican Judicial Convention. He has been endorsed by the Liberal Party as its candidate."

Although the Democratic convention did not endorse his candidacy, Judge Rosch said "there the candidate did not have the support of the delegates of Ulster County of which county he (John McCourt) is a resident, although practicing law with an office in Newburgh, which is in another judicial district."

Judge Rosch declared that "there is no comparison" in ability and experience between Judge Elsworth and his Democratic opponent, "a justice of the peace."

Quotes Bar Endorsement

He quoted the Columbia Bar Association endorsement of Judge Elsworth which described him as an "experienced and conscientious judge."

Judge Rosch urged everyone in the third judicial district to vote for Judge Elsworth's re-election.

"In doing so, those who know the situation and are not blinded by a narrow partisanship, will feel that you have done right in keeping in the service of the state a qualified man to administer justice."

The floorwalker of a department store noticed a young man looking very confused, so he went to him and asked,

Floorwalker—Can I help you, sir? You seem puzzled about something.

Fellow—I am. I was supposed to buy either a camisole or a casserole, but, so help me, I can't remember which.

Floorwalker (amiably) — Perhaps I can help you if you tell me what sort of chicken you intend putting in it.

Professor Johnson was concentrating very deeply as he strolled along the boulevard. He hardly noticed an acquaintance who was coming in the opposite direction. The man, who was a terribly long-winded individual, halted the professor.

Friend—Well, well, if it isn't the professor, himself. Haven't seen you for at least two days. What's going on?

Professor (as he moved back into stride)—I am.

Two lions escaped from the zoo in Washington, D. C., and didn't meet again for three months.

When they finally met, one was fat, the other skin and bones.

Skinney one—I've never seen you looking better. How in the world do you manage to be so well fed?

Fat Lion—I've been hiding in the Pentagon eating a scientist every day. So far nobody's noticed it.

A teacher, intent on impressing his pupils with an important point of grammar, stood on his desk and crowed like a rooster after he stated one of the best known rules.

Student—I'll never forget the day you stood on your desk and crowed like a rooster. But what was the rule we were supposed to remember?

Mr. Stetson had the usual man-lost-in-department-store look about him. The floorwalker noticed him wandering aimlessly about, and noticing his rather shabby suit, inquired politely:

Floorwalker—Are you looking for something in men's clothing, sir?

Mr. Stetson (snapping curtly) —No! I'm looking for something in women's clothing—my wife.

A man looked over a car in the salesroom and then was given a demonstration. But he couldn't make a decision.

The following day he turned up again and said he had decided to buy the car.

Man—My wife.

Hanover Likely Head of State AFL-CIO Merger

NEW YORK (AP) — The New York State American Federation of Labor and the CIO, each with about one million members, have agreed to merge in a state AFL-CIO.

Plans to combine were announced Wednesday, and a merger convention was set for Dec. 9. The compact will result in the nation's largest state labor union.

The idea of joining forces took nearly three years to resolve. The parent organizations merged into the AFL-CIO Dec. 9, 1955.

Sets Eyes on 250,000

Harold G. Hanover, president of the state federation, is slated to become president of the consolidated unions. He said one of the first goals of the new state AFL-CIO will be to bring 250,000 independent unionists into the organization, plus attempts to organize non-unionists among the state's working force of 7½ millions.

Second in command of the new organization will be Louis Hollander, present CIO state leader. Hollander will be chairman of the merged executive council as well as take charge of political activity.

The new group will be directed by an executive council of the four top officers in addition to 15 AFL vice presidents and 10 from the CIO—a total of 29 council members.

Staffs to Continue

Staffs of both existing groups will continue in their posts.

Harold J. Garno, CIO secretary-treasurer, was designated for the same post with the AFL-CIO. Ray Corbett, AFL secretary-treasurer and legislative chairman, will be legislative chairman of the new group.

Officials said funds of the two state bodies will be merged by the end of the year. Henceforth, it was said, the state organization will be financed by a two cents a month assessment on per capita membership.

The merged organization will keep its headquarters in New York City. The statewide combine is expected to be followed quickly on the local level in cities throughout the state.

Separate AFL and CIO ratification conventions will be held here Dec. 8. The following day about 4,000 delegates are scheduled to convene for the merger convention.

Ave Lauds Committees

The pact was reached in a session at the Commodore Hotel, where Gov. Averell Harriman and Carmine G. DeSapio, Tammany Hall leader, were attending another meeting.

Harriman and DeSapio stopped by to congratulate the negotiating committees which worked out the merger plan.

"Nothing more important for the working people of the state has ever happened than this agreement," said the governor.

Marine Recruits Charge They Were Badly Treated

PARRIS ISLAND, S. C. (AP)—This Marine Corps training center has another case of alleged recruit maltreatment.

Six Lisbon, Ohio, trainees charged they were slapped around and forced to contribute to a $690 payoff to three drill instructors.

A formal investigation is under way and the instructors, now at Camp Lejeune, N. C., have been relieved of duty and restricted to base pending the outcome.

They were identified as S. Sgt. Ralph A. J. Grant of Racine, Wis., Sgt. Ronald J. Heller of Milwaukee, and Sgt. William B. Poss of Augusta, Ga.

The six recruits told their parents the incidents took place while they were members of a platoon which went through 12 weeks of basic training here last summer. The recruits graduated after four weeks of advanced training at Camp Lejeune and now are home on leave.

They said they were slapped and pushed by the instructors and also charged that each of the 69 trainees in the platoon had to shell out $10 to the trio. Instructors are prohibited by military regulations from taking gifts from recruits.

The accusations were made by Arthur Lynn Browne, Richard J. Koffel, John W. Coie, Robert L. Tafini, Roger A. Magaffick and John R. Hull.

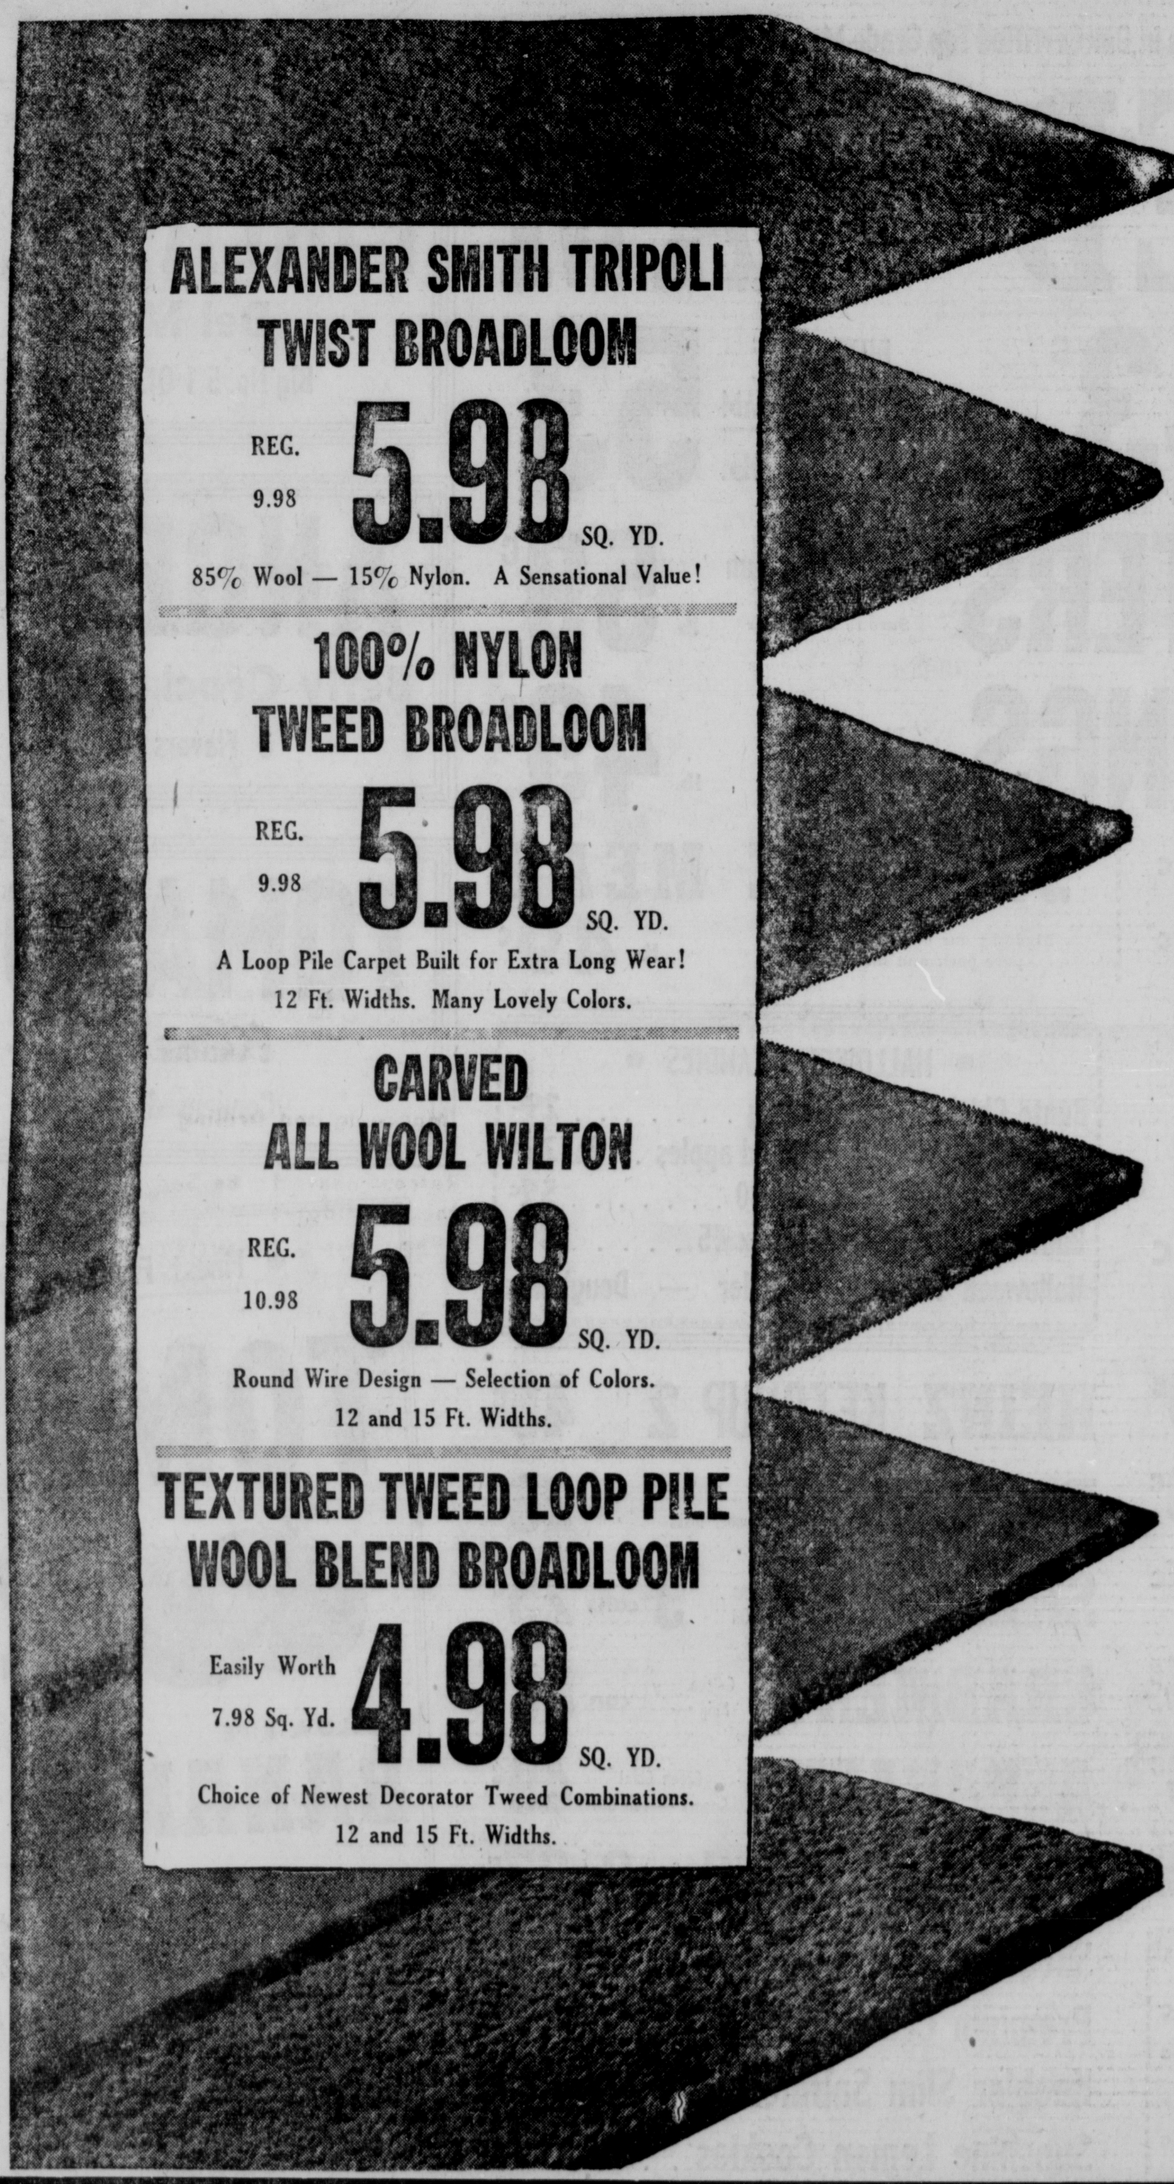

An investigation was ordered after the parents submitted complaints.

Many Lucrative State Jobs Waiting

Albany Due for New Faces Regardless Of Rockefeller or Harriman Election

By CHARLES DUMAS
Associated Press Staff Writer

ALBANY, N. Y. (AP) — Regardless of who wins Tuesday's election, there are going to be some new faces in top jobs in Albany, come January.

You don't have to be a political expert to perceive the enormity of the stakes in the battle for governor and other statewide offices.

Much Rides on Outcome

Besides the prestige of the principal figures, millions of dollars' worth of attractive patronage jobs are riding on the outcome.

Because they are the "ins", Democratic Gov. Harriman and his followers have the most to lose from defeat. But Nelson Rockefeller's Republican team would not emerge unscathed, either.

A Harriman defeat would mean, of course, a wholesale turnover in Albany. There would be a new cabinet (department heads) and new faces at the head of lesser state agencies and in strategic posts in the Executive Chamber.

There are many lucrative jobs in the offing. Many pay $20,000 a year and more, with such extras as expense money and chauffeur-driven cars. Republicans would inherit these jobs.

Some Dems May Go

If Harriman should win re-election, there still might be some turnover. Usually at the end of a chief executive's term, there is a reshuffling in the cabinet and other spots.

There have been persistent reports, for example, that Agriculture Commissioner Daniel J. Carey and Public Works Superintendent John W. Johnson plan to step down. They deny it.

Also there has been some talk that Commerce Commissioner Edward T. Dickinson will be shifted to another job.

One high post awaiting an accupant is that of secretary to the governor, a position tantamount to chief of staff in the executive chamber. It was held by Jonathan Bingham, who is running for the State Senate in the Bronx. Win or lose, he is not expected back.

Another key job to be filled is Democratic Minority leader of the Assembly. It became vacant last July, when Eugene F. Bannigan of Brooklyn died. Several lawmakers from New York City are bidding for this plum.

While the Republicans have plenty to gain, they could lose a lot, too.

Featured at Stake

The election places in jeopardy the million-dollar patronage payroll of the state Law Department, headed by Republican Atty. Gen. Louis J. Lefkowitz. If Lefkowitz loses, there go the jobs.

A Rockefeller defeat would deal a heavy blow to the political careers of two familiar figures in Albany, GOP State Chairman L. Judson Morhouse and Assemblyman Malcolm Wilson.

Morhouse staked his own future on Rockefeller last summer when he guided him to the gubernatorial nomination over stout opposition of such party prominents as Leonard Hall and Senate Majority Leader Walter J. Mahoney.

Morhouse's resignation would be almost automatic if Rockefeller lost.

Wilson gave up 20 years of seniority in the Assembly, and the chairmanship of the important Codes committee, to run for lieutenant governor. He would be out in the cold if his ticket failed.

But, politics being what it is, everybody can't win.

SPA Awards Contract

NEW YORK (AP) — The State Power Authority on Wednesday awarded a contract to the Milwaukee Crane Division of Industrial Enterprises, Inc., Cudahy, Wis., for supplying six gantry and traveling cranes for the Lewiston power plant of the Niagara project.

The firm bid $1,049,765, lowest of 12 received.

One of the world's first libraries is the palace of Assurbanipal in Iraq. The library "books" are clay tablets, some dating back 2,600 years.

Please Check Guns Outside: Domestic Court

NEW YORK (AP)—Any policeman or other legitimate gun carrier must check their firearms before appearing in Domestic Relations Court—if they are involved in a case.

The new order was issued Wednesday by presiding Justice John Warren Hill. He ruled that husband or wife involved in a marital dispute must check any weapons with a court clerk.

Hill said his ruling resulted from an experience of another judge, not identified, who handled a case involving a policeman and his wife. The judge ruled against the husband and the latter openly resented the decision. The patrolman was armed and, while he did not produce his gun, it made the judge a bit uneasy.

Hill said no one has been actually frightened, but added, "we have got 23 judges and we want to keep them all."

State Will Expand OrangeTrainingSchool

ALBANY, N. Y. (AP) — The state will expand its new training school for boys at Otisville in Orange County.

Plans call for increasing capacity to 400. The institution now houses 276 boys in temporary facilities.

The first phase of the expansion will provide five new cottages and a new school building at a cost of about $1,600,000. That work is scheduled to be under contract by Jan. 1.

The school is now in what was a tuberculosis sanitarium operated by New York City. The state leases the property from the city.

Plans for the expansion were announced Wednesday by Gov. Harriman's office.

About 6,000 children from 5 to 14 years of age are killed accidentally in the United States each year. Motor vehicle accidents account for two-fifths of the deaths.

Factory Outlet Must Keep Up to Fair Prices

PROVIDENCE, R. I. (AP)—Ann & Hope Factory Outlet Inc. is being restrained by court order from selling products of the Norwich Pharmacal Co. at less than fair-trade prices.

Judge Louis W. Cappelli of Superior Court issued a temporary restraining order Wednesday. A hearing on the company's appeal for a permanent order was set for Dec. 2.

The temporary order bars the Ann & Hope Co.—a giant retail operation established in a former textile mill—from advertising or selling Norwich products under the fair trade price.

The company alleged that two of its products—Pepto-Bismol and Unguentine—had been sold in the mill outlet Sept. 15 at less than fair-trade price.

An average cow in the United States produces about 6,000 pounds of milk each year.

Slam Needs Expert Play

BY OSWALD JACOBY
Written for NEA Service

Mervin Key and Kenneth Parker are two of the many fine young players who make Houston their home. In the recent Lone Star tournament their wives decided to show them a thing or two and ran off with the Women's Pairs.

Judy Parker who sat North had a minimum opening no-trump, but it looked to her as if she had key cards. Hence, her aggressive bidding that put Julie Key in a heart slam.

The queen of spades opening was not exactly what Julie wanted. She would have preferred a diamond or a club. She also saw that she would have to be rather lucky to make her contract and proceeded to give luck a chance.

Dummy's king took the first trick and the king of clubs was led. East won with the ace and played a second spade.

Julie won in her own hand and led a trump to dummy's ace and a second trump back to her king. Now she played the queen, jack and ten of clubs and discarded both dummy's spades. Since East held both the long club and the last trump she had to follow suit.

Now Julie ruffed her last spade with dummy's queen of trumps and made her contract.

Lieutenant Goes Before Board on Neglect of Duty

FT. JACKSON, S. C. (AP)—A general court martial board composed of fellow officers convenes today to hear the neglect of duty charges against 1st Lt. Gerald Wheatley, 23, of Bridgeton, N. J.

A 1956 graduate of the Citadel at Charleston, S. C., Wheatley is the third soldier to be court-martialed in less than two weeks as the result of rugged punishment dealt out to recruits in the training company he commanded last summer.

Convicted earlier were M.Sgt. George Sovie, 30, of Ogdensburg, N. Y., and Sgt. 1C. Charles Moman, 28, of Empire, Ala. Both were reduced one grade in rank and received fines o $450 and $300 respectively.

Sovie the first sergeant in the recruit company commanded by Wheatley, claimed that the young officer failed to assume the disciplinary and other duties that were his responsibility as the company commander. Sovie said he had been forced to take them over in an effort to mold the raw recruits into battle-ready soldiers.

Some 30 young trainees testified at the court-martials of Sovie and Moman that they had been forced bodily into mess hall grease traps and made to shout obscene phrases. Two said they had been dipped head first into the grease traps and one described a mock hanging conducted by Moman.

Wheatley was called as a defense witness at the Sovie court-martial, but declined to testify on grounds that it might tend to be self-incriminating.

First Lt. John Shea of Rochester, N. Y., trial counsel in the two previous cases, is also prosecuting the Wheatley case for the government. Wheatley is being defended by 1st Lt. Henry L. Brown of Great Falls, S. C.

Wood Pleads Guilty In Divorcee's Death

NEW YORK (AP) — Robert Wood, former magazine cartoonist, pleaded guilty Wednesday to first degree manslaughter in the stab slaying of a divorcee in a Manhattan hotel room.

The body of Mrs. Violette Phillips, 45, was found in the room after a taxicab driver told police Wood had blurted out a confession of the slaying on Aug. 23. The couple had checked into the hotel 11 days before under an assumed name.

Wood, 41, who once did drawings for the magazine "Crime Does Not Pay," was indicted last week for first degree murder. He resided in Hartsdale.

General Sessions Judge John Mullen set Nov. 25 for sentencing. Wood faces a maximum prison term of 20 years on the manslaughter charge.

The United States in the 19th Century confirmed the land titles previously granted by the Spanish Crown to the Pueblo Indians in New Mexico.

Homemade Sweet Rolls Will Brighten Fall Breakfasts

BRINGING welcome cheer to any breakfast (or dinner or supper) table are these sweet rolls, made of prepared biscuit mix.

BY GAYNOR MADDOX
NEA Food and Markets Editor

Old-fashioned yeast-raised breakfast rolls now get the speed-up treatment. By combining active dry yeast and prepared biscuit mix, you can make regular yeast-raised rolls in much less time. That's good news for good breakfasts.

Sweet Breakfast Rolls

One-half cup warm water (not hot—105 to 115 degrees F.), 1 package active dry yeast, 1 egg, 1 tablespoon sugar, 2½ cups biscuit mix.

Dissolve yeast in warm, not hot, water. Add egg, sugar, biscuit mix and beat vigorously. Turn out onto surface well dusted with biscuit mix. Knead until smooth, about 20 times. Shape and fill as directed below. Cover with a damp cloth. Let rise in warm place (85 degrees F.) until double in bulk, about 45 minutes. Bake at 400 degrees F. about 15 minutes. If desired, frost with confectioners' sugar icing and decorate with jelly or jam.

Butterfly: Divide dough in half. Roll each half into a rectangle 6 inches wide and ¼-inch thick. Brush with margarine or butter. Sprinkle with a mixture of 1/3 cup sugar, 1 teaspoon cinnamon and ¼ cup chopped pecans. Roll as for jelly roll starting at the long edge. Slice each roll into pieces 2 inches wide. Place about 2 inches apart on greased baking sheet. Just before baking, crease each slice heavily across the center with the back of a knife.

Figure S: Cut dough into small pieces. With the palms of hands, roll to form a rope about ¼-inch thick and 8 inches long. Shape into "S" twisting excess into spirals at ends of letters.

Double Spiral: Form dough into ropes as above and spiral each end toward the center.

Wheels: Roll dough into a square 12x12 inches. Brush with margarine or butter. Sprinkle with a mixture of 1/3 cup sugar, 1 teaspoon cinnamon and ¼ cup chopped pecans. Roll as for jelly roll. Cut into 12 equal slices.

TOMORROW'S DINNER: Tuna with stuffed olives in mushroom sauce, steamed rice, lima beans, hard rolls, butter or margarine, lettuce and tomato salad, canned peaches, cookies, coffee, tea, milk.

Peace Conference Slated at Mohonk

From Thursday, October 30, to Sunday, November 2, 80 to 100 persons will attend a conference at Lake Mohonk. They will come from a wide area of the Eastern United States, ranging from New England to Maryland, and representatives from local Friends Meetings such as Clintondale, Clinton Corners, Cornwall, Poughkeepsie, and New Paltz will be present.

Facilities at the Lake Mohonk Mountain House are being made available at cost. Members of New Paltz Friends Meeting and others from nearby are assisting the Smiley family with these arrangements.

The aim of the conference is to outline practical suggestions for the use of individuals and small groups, for a positive peace education program at the community level. Experienced leaders will emphasize action and work in this field, rather than intellectuallizing or promoting national organization. It is the conviction of those planning the conference that times of threat of war such as these are important times to prepare for peace.

A DINNER OF FOUR OR OF TEN?

Dear Mrs. Post: My husband and I were invited to a friend's house for dinner the other evening. We though we would be the only guests present, but when we arrived we found that she had invited three other couples. Shouldn't she have told us there would be others present I certainly would have dressed differently had I known it was to be a "party."

Answer: While there was no requirement that your friend do more than invite you to dinner on a certain day and hour, it would have been more considerate of her to have told you, "I am inviting the Browns, Smiths and Joneses too" or "We will be eight or ten."

On Returning Hospitality

Dear Mrs. Post: When I became engaged to my husband, his relatives and family friends invited us to their houses, usually to meals. Now that we're married, am I supposed to invite all these different ones to our house—to meals?

Answer: Your return hospitality is not obligation. Nevertheless, it would be as friendly of you now, as it was of them, to invite them to your house if, and when, you can. Perhaps you could manage a buffet lunch or supper and ask several families at once. Remember that people love to be invited to the houses of young people and are not at all critical of what is provided.

A Proper Signature

Dear Mrs. Post: Is it proper to sign one's name to a note or greeting card simply Helen S? Does it have any special significance? I was told it implies that the signer wishes to be called, or addressed by her given name. Is this correct?

Answer: There is no special significance attached to the signature Helen S. A note to an intimate friend would be signed Helen, or if there is any doubt as to which Helen it is, the signature should be Helen Smith.

Music Group Hears Paper on History Of Music at Meeting

The October meeting of the Music Appreciation Group was held Thursday at the home of Mrs. Boyd N. Williams, 192 Pine Street.

Mrs. John Sterley, president, conducted the business session.

The program, "History of Music" was presented by Mrs. Frank W. Thompson Sr.

In her paper, Mrs. Thompson said the following:

"The chant melody, accompanied by a discanting part, formed the basis of music. Among these were the simple chants of the Gregorian type, which derived its name from Gregory I who was Pope of the Catholic Church about 604. The center of culture of church music was the convent, most outstanding of which was the monastery of St. Gall in Switzerland.

"The chant was developed in the 11th Century in polyphonic form of structure, first in France, then Italy, the Netherlands and Germany."

Records were played portraying these forms of polyphonic music as well as English church music and chorales.

Mrs. Thompson also stated in her paper that the secular form of music of the 12h Century developed the practice of solo melody accompanied by instruments, which included folk songs and dances, madrigals, and group choruses.

"The voice held the first place in music in the early centuries," she said, "then followed the development of instruments which included the lyre, flute, and still later the organ, oboe, coronet, bassoons, trombones."

Tea was served by the hostess, Mrs. Williams, and co-hostess, Miss Grace Shumway with Mrs. Norman Swibold pouring.

Sorosis Meeting Held Recently

A meeting of Sorosis was held at the home of Mrs. William Rylance recently with Mrs. Fred Ertel presiding.

Mrs. Ertel called attention to the county meeting to be held at the First Presbyterian Church on November 12. A coffee hour at 10 a. m. and luncheon at 12:30 is included on the program.

Mrs. Thomas Reynolds spoke on the topic of "Thomas Jefferson" at the meeting. She depicted him first as an architect, a great scientist, an astronomer and a lawyer.

Mrs. Reynolds related incidents about his political career, as a member of Continental Congress, the Virginia Legislature, Governor of Virginia, Secretary of State under Washington, vice president under Adams and President of the United States.

Mrs. Reynolds said he believed in freedom of worship, the rights of the individual and was opposed to slavery. Jefferson, she told the group, was the author of the Declaration of Independence and the father of the University of Virginia. Because of his opposition to the Federalist Party, Jefferson organized the Democratic Republican Party, she said. He was an idealist who left a lasting influence on the people of America.

The next meeting of Sorosis will be held on November 10 at the home of Mrs. H. W. Wiggins.

More About UNICEF

In response to my column the other evening on UNICEF (United Nations International Children's Emergency Fund) I received a letter from an Onteora parent advising me that this marks the second year the elementary school children at Onteora will have supported the UNICEF project. The letter stated:

"This is a voluntary collection of pennies, with the children bringing in the total collection to the annual school Halloween party.

"Besides the carnival fun provided by the school and parents, the Onteora children will experience also the pleasure of presenting their contribution to UNICEF.

"The children make their own containers, arm bands and posters under the direction of the Onteora teachers."

Others Are Helping

In addition, then, to the Onteora children, we now will have the children of Franklin Street AME Zion Church participating in the project, children in New Paltz, and it will also mark the third consecutive year that the young people of Tillson will have aided UNICEF.

By this time tomorrow you will probably have had several dressed-up youngsters at your door. Watch for those wearing and bearing the UNICEF emblems and give generously.

Remember also that the countries receiving these pennies must produce two pennies for every one they receive from UNICEF. Thus you are not wholly supporting their sick and hungry children and mothers, but you are helping each country to help its own.

Household Hints

For a luxurious Thanksgiving table, remember that budget priced tablecloths are now available that look like fine linen. They are made of dacron and rayon and can be had in rectangular shape or in a round version with fringe. The cloths can be washed in suds and warm water.

Serve Fresh Pork

Fresh pork contributes significant amounts of protein, iron and B-vitamins to the daily diet. The price of this nutritious meat declines during fall and winter months, so serve it often. For accompaniments, the Swedes like spiced prunes or apricots with pork dishes. The Chinese make a sweet and sour sauce using pineapple chunks and green peppers with pieces of pork. The French like an herb seasoned stuffing and a sprightly light wine. Also consider serving low-calorie vegetables such as broccoli, spinach, sauerkraut, brussel sprouts and celery with pork dinners.

Five O'clock Dip

Cream an 8-ounce package of cream cheese, 2 tablespoons cream, 1 tablespoon meat or barbecue sauce, ½ teaspoon Worcestershire sauce, ½ teaspoon lemon juice, and ¾ teaspoon salt until well blended. Serve in a chilled bowl surrounded with warm crackers and potato chips.

NEW YORK (AP) — American business profits are trailing those of last year by 25 per cent with two out of three firms showing declines for the first nine months of 1958.

But the gap slowly but steadily is being narrowed since the grim first three months of the year.

In the first quarter of 1958, the decline from the like period of 1957 was 33 per cent with the industrials off 36 per cent.

At the halfway mark, profits looked a bit better — all business running 32 per cent behind the 1957 figures, with industrials down 35 per cent.

Today a better third quarter for many companies gives the nine-month net profits after taxes of the first 461 companies to report a combined total of $5,603,763,000, compared with $7,517,376,000 for the same companies in 1957, a drop of 25.4 per cent.

Declines were reported by 316. Net losses were reported by 23, compared with 13 in the previous year. Red ink was splashed notably over the reports of the auto industry and the Eastern rail roads.

Of the 391 industrial firms reporting so far, 276 declined. Combined profits came to $4,415,504,000, against $6,215,264,000 in 1957, a drop of 28.9 per cent.

Utilities mostly went their steady way, showing a gain of 7.7 per cent this year over last. The railroads were down by 38.5 per cent.

In many cases the third-quarter reports were notably improved over the April-May-June quarter.

And tomorrow looks brighter. Many corporate executives seem sure that the last three months of the year will bring a profit gain over the third quarter and further narrow the gap, with the total for 1958 being not too far behind that for 1957.

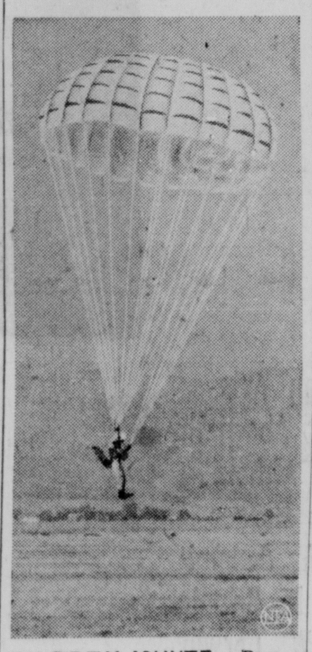

The decline this year is marked in some of the nation's leading industries. With two of the Big Three auto makers operating at a loss, the decline for that industry as a whole was 66 per cent.

Most steelmakers are behind last year and the profit decline at the three-quarter mark of the year is 44 per cent. Business is looking up for them now and they predict a better final quarter.

Coal companies suffered along with steel and are trailing 1957 by 42 per cent. Nonferrous mining and metalworking companies slipped until recent weeks and are 36 per cent below year ago earnings.

Almost all oil companies are making less this year than last, the gap now being 29 per cent.

On the happier side, the office equipment makers, tobacco companies, food and beverage firms, and airlines join the utilities in reporting better profits this year than last. Most drug companies do too, but three of them had declines enough to pull the total for the 11 down by 4 per cent.

SAFETY 'CHUTE — Paratroopers who have sprained and even broken ankles in a hard landing will welcome this new personnel parachute. The picture shows parajump expert Lew Vinson coming in to a stand-up landing at Lake Elsinore, Calif. Secret of the radical new 'chute is a series of rings with crescent-shaped slots in each nylon gore. It reduces landing shock by at least 35 per cent. It was designed and developed for the Navy by Radioplane, a division of Northrop Aircraft, Inc.

GE Offers Plan To Speed Output Of Electric Power

NEW YORK (AP)—The General Electric Co. has proposed a plan to speed construction of small private plants to produce atom-generated electric power.

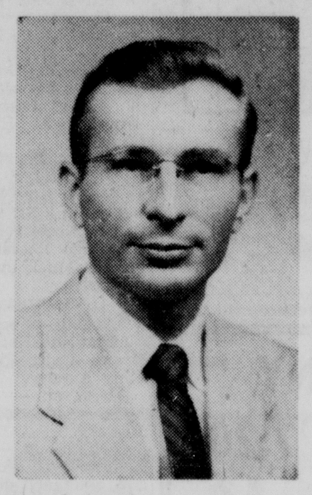

Francis K. McCune, GE vice president and general manager of the company's Atomic Products Division, discussed the plan at a news conference Wednesday.

Under the proposal, McCune said, at least 50 plants would be built, with each costing between 4 and 4½ million dollars and producing 5,000 kilowatts each of electric power.

He said cost of the program would be shared by the government, the utilities, and manufacturers of reactors.

McCune said the program was intended to supplement, and not supplant, other types of reactors on which GE and other firms now are working. He added that atomic power could become the cheapest power available in most parts of the country.

To the Voters of the Town of Ulster:
There is only one Town office to be filled at this year's election — that of SUPERVISOR.

Regardless of the Political Party one favors, the candidate who can do the best job in looking after our Town's affairs, should be the one elected. We feel this man is our present Supervisor who was appointed to fill the unexpired term of Robert Pardee, who had to resign on account of ill-health.

His experience since he accepted this office last Spring has shown him to be a good administrator. He is familiar with the Town's problems and is working to correct them.

He has the time to devote to the office, also the education and ability to give the people of our Town good Government and represent them on the County Board of Supervisors.

We, the undersigned residents of the Town of Ulster, feel it is important to urge all voters to support ALEXANDER J. BANYO on Election Day, as the best qualified candidate for this office.

Let the man keep the difficult job to which he was appointed. He has proven he can handle it.

Catholics Prohibit Role in UNICEF Drive

MILWAUKEE (AP) — Two Roman Catholic pastors today held firm in their decisions to prohibit parish children from joining a Halloween fund drive for a U.N. child relief program tabbed as Communist-affiliated by an American Legion report.

The priests declined to change their positions after the director of the organization's U.S. committee said, "We categorically deny the charge and its implication."

The pastors, heads of churches in small communities in neighboring Waukesha County, refused to let the children collect in tonight's trick or treat drive for the United Nations International Children's Emergency Fund.

The priests are the Rev. Joseph Stier of St. Mary's Church in Pewaukee and the Rev. Casimir Kuszewski of St. Theresa's Church in Eagle.

They acted after reading a report which said that "16 or more members of the UNICEF organization are either convicted Reds or in some way affiliated with communism." The report was made by an American Legion antisubversive committee in Washington State.

Norman Acton, executive director of the U.S. Committee for UNICEF, said in New York that "We have seen the original false information on which this is based and we categorically deny the charge and its implications."

Air Force Recruiting Service in New York State (right) presents the certificate to Haley. At the left is T/Sgt. Larry Snyder, local Air Force recruiter, who recommended Haley for the award. Snyder said Haley was responsible for 13 prior-service enlistments and 26 non-prior service enlistments, an "outstanding contribution to the Air Force recruiting efforts to strive for the best qualified type personnel available to handle the highly technical jobs in the U. S. Air Force today."

Nun Wins Trip

MILWAUKEE (AP) — A nun who teaches kindergarten also know a lot about music and it paid off in a free trip to the Brussels World's Fair. Sister Mary Josette Tojek, S.S.N.D., won the Fidelitone Favorite Song contest to get the first prize trip. She picked "Blue Tango" as her song and in her prize-winning letter illustrated her thoughts about it with a series of cartoons. The contest sponsors reported they didn't discover she was a nun until they sought to notify her that she had won.

Homage to New Pope Continues For Third Day

VATICAN CITY (AP)—The College of Cardinals paid formal homage to Pope John XXIII today for the third successive day.

The new pontiff of the Roman Catholic Church was seated on his throne before the altar of the Sistine Chapel. One by one, the princes of the church who elected him two days ago approached, knelt and kissed his hand.

The cardinals made their first act of obeisance to the new Pope immediately after his election Tuesday. Their second homage was performed Wednesday just before Pope John made his first radio address to the world, an appeal for peace.

Officials of the Vatican, meanwhile, were busy with preparations for the coronation of Pope John next Tuesday, Nov. 4. The most colorful of all ceremonies of the Roman Catholic Church, it likely will be televised throughout Western Europe.

So far no coronation schedule has been announced.

Parents Asked to Curb Pranksters on Thruway

ALBANY — The New York State Thruway Authority, with an eye to its past experience with Halloween pranksters, today appealed to parents and municipal officials to help discourage children from throwing objects from Thruway bridges onto passing vehicles.

Colonel Clinton B. F. Brill, authority chairman, pointed out that serious accidents could be caused by the tossing of pumpkins, stones, cans and similar objects from overhead bridges.

The chairman has requested Captain Robert V. Annett, commander of the Thruway Detail of State Police, to alert troopers to take special precautions to prevent such activities during the Halloween period.

Offenders may be charged with disorderly conduct or malicious mischief. In the latter case, upon conviction, the offender may be held financially responsible for any damage caused by his act.

Esopus Discusses 1959 Fete Plans

Nearly 40 Town of Esopus organizations were represented at a community meeting Wednesday night at the Town Hall, Port Ewen to study proposals for the town's participation in the Hudson-Champlain Celebration in 1959.

A committee of 10 was formed to study several proposals presented at the meeting.

The committee includes the Rev. Harry E. Christiana, pastor of Port Ewen Reformed Church; Reupen Gullian; Robert Graves, Miss Margaret Costello, Arthur Withall, P. Gerard Murphy, Wallace Wood, Vernon Cross, P. Joseph Beichert and Miss Hilda Smith.

To Meet Monday

They have scheduled a meeting with Town Supervisor Roger W. Mabie at 8 p. m. in the Town Hall.

Albert Kurdt, manager of Kingston Area Chamber of Commerce and Ulster County chairman of the Hudson-Champlain Celebration committee outlined plans for the celebration in 1959 and mentioned activities some of the other communities were planning for the occasion.

Some of the activities proposed for the town's participation includes an essay contest for Town of Esopus school children with awards given for the best. Essays would be written on town history.

Another suggestion was to prepare an exhibition of paintings, lithographs, models and drawings of old time river boats at the Town Hall. It was pointed out that Captain Absalom Anderson, owner, builder and captain of the historic steamboat Mary Powell was a resident of the Town of Esopus. It was also suggested that special excursions on a chartered vessel be scheduled to duplicate a voyage of the Mary Powell from New York City to Rondout.

Would Open Sites

Also receiving favorable comment was a proposal to have open to the public various historic sites in the township including Ulster Park Reformed Church founded in 1794, Slabsides, the home of John Burroughs at West Park, and the home of Judge Alton B. Parker, only presidential candidate from Ulster County.

A number of old stone houses in the township could also be opened to the public during the celebration period. Supervisor Mabie presided at the meeting.

'Suicide Control' System Proposed For Communities

By FRANK CAREY
AP Science Writer

ST. LOUIS (AP)—A nationwide "suicide control" system was proposed today by a public health specialist.

Dr. Edward Press of New York, director of field services for the American Public Health Assn., suggested:

1. Establishment of a kind of "suicide control center" in every community of substantial size. The around-the-clock center would receive reports of all attempted suicides in the area. It would promptly initiate a system aimed at preventing a further attempt in a given case — a system involving various local government agencies.

2. Establishment of a nationwide network of state and local "societies for the prevention of suicides." These would operate something like present organizations aimed at the control and prevention of such conditions as cerebral palsy, deafness and blindness.

Dr. Press outlined his suggestion at the 86th annual meeting of the APHA.

Under his idea, any person attempting suicide would be transferred, after receiving physical treatment, to the psychiatric division of a hospital and kept under constant surveillance for at least 48 hours.

Once the patient were returned to his home, follow-up visits, aimed at rehabilitation would be the responsibility of the local health department.

ADVERTISE IN THE FREEMAN

Soviet Pressure On Pasternak Is Cited for Refusal

By THE ASSOCIATED PRESS

Three Western Nobel Prize-winning authors agreed today that Boris Pasternak turned down his 1958 award because of pressure from the Soviet government, not because he agreed with the Kremlin's condemnation of his work.

The 68-yeaf-old Russian writer was awarded the $41,420 prize a week ago for his poetry and his novel, "Doctor Zhivago," which describes the loss of freedom in Soviet society. The novel is a best-seller in the West but has been suppressed in the Soviet Union.

Target of Campaign

Wednesday, after a government campaign of vilification in which the Nobel committee was accused of playing cold war politics, Pasternak cabled the Swedish Royal Academy of Letters that he was refusing the prize "because of the meaning attributed to this award in the society I live in."

"Do not take my voluntary refusal with any ill will," he added.

Previously he had messaged that he was "immensely thankful, touched, proud, astonished, abashed" by the honor.

France's Albert Camus, winner of the 1957 Nobel Prize for Literature, commented, "I don't believe Pasternak refused the Nobel Prize of his own free will. . . ."

Earl Bertrand Russell, 86-year-old British philosopher who won the 1950 prize said he was "disgusted with the Russians' attitude to this from the start. Knowing the Russian way of life as we do, we may well think that Pasternak had no alternative but to reject this prize."

He joined another Nobel winner, poet T. S. Eliot, and several other leading British writers in a plea to the Soviet Writers Union not to victimize Pasternak. The union, a prime organ of government control of Soviet writers, already has expelled Pasternak from its ranks.

Pearl Buck Saddened

Pearl Buck, American author of "The Good Earth" and the 1938 winner, said she was "deeply saddened" that Pasternak was not permitted to accept the prize.

"The rejection, which no doubt was made under pressure, does not alter his world stature as a writer," she added. "It does reflect, most unfortunately, upon his government and his compatriots."

Dr. Anders Oesterling, secretary of the Swedish awarding committee, said Pasternak would still go down in history as the 1958 Nobel Prize winner whether the Russians like it or not.

"Our judgment cannot be changed by what is now happening," he said.

30 in Running

OSLO, Norway (AP)—About 30 candidates have been proposed for the Nobel Peace Prize, Director August Schou of the Norwegian Nobel Institute said today.

Schou said a decision on the award may be held up until the middle of November.

The decision will be delayed because the chairman of the Norwegian five-man Nobel committee, Gunnar Jahn, will go to Moscow with a whaling delegation. He will not return before next week.

Practically every civilized state has based its calendar on that of the Romans.

Pacts Expiring

Strike Possible Against Gotham Papers Tomorrow

NEW YORK (AP) — Editorial and commercial employes may go on strike Friday at midnight against one or two New York newspapers.

The New York Newspaper Guild's contracts with seven newspapers expire at that time.

May Hit Two

Thomas J. Murphy, the Guild's executive vice president, said that if the guild fails to reach a settlement with each newspaper individually "its intention is not to call a strike against all seven but probably against only one or two."

"However," he added, "we are aware that the publishers may lock us out."

Murphy said the newspapers that might be struck would be selected at the last moment on the basis of their willingness or reluctance to reach a settlement.

The seven newspapers are The Times, The Herald Tribune, The Daily News, The Mirror, The World-Telegram & Sun, The Journal American and The Post.

Replying to Murphy's reference to a lockout, Donald R. McVay, executive secretary of the Publishers Assn. of New York City, said:

"Members of the association have a common contract with the craft unions, which does not expire until Dec. 8, and we expect that in any event they will comply with their agreements and enable us to publish."

Lists Chief Demands

Craft unions represent printers, pressmen and other mechanical department employes.

Murphy said the guild's chief demands were higher wages, improved pension and welfare benefits, and the tightening of "cardinal points" on working conditions, which vary from paper to paper.

Democrats Desperate: Morhouse

Two Candidates Charge Wild Statements Made

By The Associated Press

Democratic and Republican state leaders today accused each other of making wild and reckless campaign statements.

Gov. Harriman led off with a blast at his Republican gubernatorial opponent, Nelson A. Rockefeller.

Harriman declared that all the things that Rockefeller has proposed for the state would cost a total of $2,400,000,000 during the next four years.

The governor termed this a staggering sum and said it could be provided only by huge tax increases.

Desperate, Says Morhouse

L. Judson Morhouse, state GOP chairman and Rockefeller's campaign manager, shot back quickly with a statement saying the Democrats are becoming desperate and trying to frighten voters with phony claims.

"Gov. Harriman's campaign for re-election, which has been orbiting way off course for several weeks, began to disintegrate today in an explosion of wild, irresponsible charges," said Morhouse.

"Mr. Harriman and the Democratic state chairman demonstrated in incredibly conflicting claims just how desperate they have become in the face of what now seems certain victory for Rockefeller.

Cites Differences

"The Democratic state chairman, Mr. (Michael) Prendergast, claimed that Mr. Rockefeller's proposed action to solve state problems would cost 914 million, while Gov. Harriman dreamed up a total 2.4 billion, or 261 per cent more than Mr. Prendergast's fictional figures. . . .

"The Harriman and Prendergast false figures...are typical of the fraudulent charges Mr. Harriman will be making in the next few days in a futile attempt to frighten the voters and to save himself from defeat."

Harriman had attacked the Rockefeller proposals in a prepared statement issued from his headquarters.

Goes to Brooklyn

He said his Republican opponent "hasn't given any clue as to how he thinks these proposals should be paid for, or, as a matter of fact, shown any recognition that they cost money."

Rockefeller headed for Brooklyn on his campaign schedule today for another of the walking tours which have proved so popular among candidates this year. Wednesday he had swung through Queens and Nassau counties in his quest for Nov. 4 votes.

Rousing Reception

He got a rousing reception from highly enthusiastic school children at a stop in Far Rockaway, Queens—in fact a bit too rousing. Upon his arrival the youngsters began pushing, shoving and howling for autographs. Rockefeller finally escaped the crush by mounting a truck cab.

There he sat signing autographs for 45 minutes while police struggled to maintain order among the several hundred youngsters.

The GOP contender charged in several speeches that the Democratic governor has wasted state money and has let down residents of the suburbs in the fields of education and transportation.

A statement issued from GOP campaign headquarters in New York City today accused Harriman of "trying to scare the people with silly charges that Republicans are opposed to rent control."

Statement by Two

The statement—made by Senate Majority Leader Walter J. Mahoney and Assembly Speaker Oswald D. Heck—said:

"Residential rent control in New York State was conceived, passed, instituted and ably administered by Republican legislators and a Republican administration. The Democrats have continually attempted to convert rent control into a political football."

Mahoney and Heck said Rockefeller "repeatedly has pledged his support of rent control and of vigorous and fair administration of the law."

She'll Vote Hogan Now

Mrs. Franklin D. Roosevelt said she will vote for Manhattan Dist. Atty. Frank S. Hogan, Democratic candidate for U. S. senator.

In her newspaper column "My Day," Mrs. Roosevelt said Wednesday: "I shall vote for the Democratic party as a whole, since I believe that it is important to the nation for the party to win this year."

The President's widow had said on a television program last Sunday that she was undecided whether to vote for Hogan. This was partly because of the way his nomination reportedly was engineered by Tammany Hall leader Carmine G. DeSapio.

Hogan charged in campaign talks that President Eisenhower has stubbornly refused to assume leadership in the school integration crisis. He said the Eisenhower administration's attitude on civil rights has been marked by vacillation in the past six years.

Split Says Keating

Hogan's Senate opponent, Rep. Kenneth B. Keating, said today that the Democratic party nationally "has a badly split personality" and in New York State "the Democrats are not just split—they're fragmented."

In a talk prepared for a New York Young Republican Club luncheon, Keating said:

"We have Harriman Democrats and just plain frustrated Democrats. . . ."

Cites Experience

Questioning Hogan's knowledge of national and international affairs, Keating spoke of his 12 years experience in the House and his attendance at 10 international conferences. "I think I do know something about the things a senator should know," Keating said.

Harriman, in his statement that Rockefeller's proposals for state projects "add up to a staggering sum," said he has "kept an adding machine" on what they would cost the state or what would have to be met through federal taxation.

Harriman said:

"Here's what the state's portion of his proposed expenditures would mean to state taxpayers each year: (1) A 25 per cent across-the-board increase in existing state taxes, or (2) almost doubling the personal income tax, or (3) doubling all direct taxes levied on business."

Harriman said Wednesday he and Mayor Robert F. Wagner were working out a program to preserve the 15-cent transit fare in New York City.

The governor campaigned Wednesday on Staten Island and in Brooklyn.

Rockefeller said on a recorded television program Wednesday night that state spending has increased 50 per cent under the Harriman administration. He said the capital construction fund is "practically exhausted" and "the state recently didn't have enough cash on hand to meet its bills."

Rockefeller promised that if he is elected he will "re-establish efficient, economical, businesslike management of . . . state government."

In a statement issued in New York City, Rockefeller pledged support to a proposed Hudson River bridge between Newburgh and Beacon and the construction of an interstate route (Route 503) that would cross Orange County."

Oliver Goldsmith, Canada's first native-born poet, was a grandnephew of the Irish poet of the same name.

Eight Contests Are Scheduled

By ED PALLADINO
Freeman Sports Staff

Eight area scholastic contests, highlighted by the Kingston High School game against unbeaten Vincentian Saturday at Hawkins Stadium, Albany, are scheduled this weekend as the football season nears the homestretch.

The Maroon players will be seeking their twenty-first straight decision and are slight favorites, though the Albany club has not been beaten in twelve straight games.

Two important UCAL contests, a pair of games in the Dutchess County Scholastic League and a memorable meeting between Port Jervis and Newburgh are on the slate this weekend.

Friday

RONDOT VALLEY AT NEW PALTZ—A traditional Halloween night game for Larry Johnson's club. New Paltz heads the UCAL, but has to beat Rondout to clinch at least a tie for the crown. The home team is favored, but not by much.

Saturday

KINGSTON at VINCENTIAN—Another tough one for Bill Burke's gridders. Vincentian has won the Albany Diocesan for so many years, the statisticians have lost count. However, this is a solid Kingston club and if it plays as well as in previous tilts it should come home with the bacon.

POUGHKEEPSIE at BEACON—The Pioneers are making their first start since the Kingston debacle. They should rebound against an in and out combination. This is a good Poughkeepsie team, possibly the second best in the DUSO League. Beacon is third in a weaker DCSL circuit.

PORT JERVIS at NEWBURH—An important battle. The Goldbacks are unbeaten in five starts and the Porters are rapidly improving. A real test for Newburgh, possibly its strongest to date.

ROOSEVELT at SAUGERTIES—This has been a tough season for the Sawyers, but they are meeting a club in their own class. The winner will take fourth place in the DCSL circuit. A toss-up, but a slight edge to Saugerties, which has shown more punch.

ONTEORA at MARLBORO—A must game for Onteora, defending UCAL champion. Marlboro has had a poor season, but is improving rapidly. Onteora won its last start after three losses. It has to achieve a victory to have a chance for at least a share of this year's title.

HIGHLAND at WAPPINGERS FALLS—The big one in the DCSL. Highland is defending champion, and is unbeaten in league play over the past two seasons. The Falls haven't lost a circuit clash this year and bowed only to Highland last season. Bob Relyea's Ulster County club is favored to repeat.

MIDDLETOWN at A. B. DAVIS (Mt. Vernon)—A battle of two winless clubs. The Middies are decided underdogs since A. B. Davis lost by only 7-0 to Port Chester, a school which bowed by only seven points to Newburgh. A tough season for John Whitehead, new Middie coach.

RELEASED ON BOND—Tony Rio, left, University of Michigan fullback, and Jack Lewis, captain of the basketball team, leave court in Ann Arbor, Mich., after their arraignment with four other students on charges stemming from trafficking in football spot cards. All stood mute at arraignment and demanded trials. All were released on $150 bonds each. (AP Wirephoto)

Screwy Incidents Highlight Many Baseball Games in '58

By BEN OLAN
Associated Press Sports Writer

NEW YORK (AP) — When can a batter hit a pop fly into his own glove for an out?

The answer: When he lends his glove to a fielder on the opposing team. It happened last May 30 when Gil Hodges of Los Angeles loaned his glove to rival first baseman Bobby Adams of Chicago.

Adams never had played the position before and since both Cub first basemen, Dale Long and Paul Smith, were left-handed, Bobby had to borrow Hodges' mitt. In the fourth inning, Adams used Hodges' glove to catch Gil's infield fly.

There were many other odd happenings in organized baseball during the 1958 season.

Danny Murtaugh, Pittsburgh manager, rushed onto the field toward Umpire Jocko Conlan. Many fans wondered about the sudden action because the Pirates were leading 14-4 in the seventh inning.

Murtaugh had a ready answer. "I really didn't have anything to protest about. Jocko wanted to know what was wrong. Nothing, I told him. This game is being televised back to Chester (Pa.) and I wanted my wife and kids to get a look at me." Danny lives in Chester.

A Dirty Trick

There's the one about the delay in a Pioneer League game at Missoula, Mont.

Fans began to get fidgety when game time passed without an appearance by the umpires. A quick investigation showed that the three umpires were in their dressing room. The only trouble was that a prankster had locked the door from the outside, with the Umps on the inside.

Roy Hawes of St. Paul used his head in a game against Indianapolis. A vicious line drive caromed off Hawes' glove and struck him on the head, caromed into the air and was caught by the second baseman. Hawes was stunned but walked from the field.

Catcher Dick Kinaman of the Salinas, Calif., team wore his full catching equipment when he came to bat in the game of May 3. Although the umpires made him shed the equipment, Kinaman had good reason for the protection. He had been hit by pitched balls seven times in four previous games.

No More Tickets For Tiano Dinner

With more than 350 reservations made for the Charles J. Tiano testimonial dinner on Nov. 10 at the Governor Clinton Hotel, ticket sales were announced as officially closed today.

Thomas M. (Tommy) Davitt and Anthony J. (Tony) deLisio, co-chairmen, said that, with regret, it was impossible to handle any more reservations.

The ticket sale represents a real cross-section of the sports fraternity in the Hudson Valley area who will pay tribute to Tiano on his 25th anniversary as a sportswriter. We regret that, following a meeting of the committee last night and a check of tickets, we are obliged to close the ticket sale."

Tom Meany, of the New York Yankees public relations staff and a former New York sportswriter, will be the guest speaker at the dinner honoring the Freeman sports editor.

Cardinals Rout Jap Stars, 7-2

NAGOYA, Japan (AP) — The St. Louis Cardinals pounded four Japanese pitchers for 11 hits, including two home runs, to crush the Japan All-Stars 7-2 today. It was the Cards' fourth win in five games played thus far in their 16 game tour of Japan.

Right - hander Larry Jackson, the Redbirds' winning pitcher, yielded only five well-spaced hits in hurling seven scoreless innings.

The Cards big inning was the eighth when they bunched four hits for three runs.

John Wise Resigns Post With Phillies

PHILADELPHIA (AP) — The Philadelphia Phillies announced today that John Wise, traveling secretary since 1952, has resigned. He will be succeeded by Charles Meister.

Wise, 37, is associated with Cincinnati Redlegs' outfielder Del Ennis in the operation of a bowling alley. He joined the phillies organization 13 years ago.

Meister, 51, formerly was a passenger agent with the Baltimore and Ohio Railroad.

Weekend Tilts May Answer 'Best Star' Football Puzzle

By JACK CLARY
Associated Press Sports Writer

Some of Saturday's more important football games could turn into a battle of "stars", answering the inevitable "who is best?" question.

Innocently, the schedule-makers have brought together many of the top-flight college performers this weekend.

Over The Rockies

College of the Pacific makes its second trip over the Rockies in two weeks, meeting Boston College in Boston. It is also bringing Dick Bass, the nation's No. 1 rusher with 647 yards on 79 rushes in five games.

The Eagles have their ace quarterback and passer Don Allard returning for the first time since he was injured in the Syracuse game, a month ago. He was BC's big offensive gun last year.

Two quarterbacks promise plenty of fireworks when Wake Forest moves to Clemson for their Atlantic Coast Conference battle. Wake Forest is counting on Norm Snead, 14th in the country in total offense with 596 yards in six games.

Back in Harness

Clemson has Harvey White back in harness after being injured in the loss to South Carolina a week ago. White has been among the top five ACC offense leaders all year.

Also in the ACC, Alex Hawkins, South Carolina's rumbling halfback, pits his prowess against Maryland's quarterback Bob Rusevlyan, the nation's 14th ranked passer.

Hawkins led the Gamecocks to their 26-6 upset of Clemson a week ago with 57 yards in 12 carries and one touchdown. Rusevlyan has racked up 387 yards with 41 completions and two touchdowns for the Terps.

The big game in the Big 10 also could turn into a great offensive duel with Ohio State's Bob White and quarterback Frank Kremblas facing Northwestern's signal caller Dick Thornton and halfback Ron Burton.

Leads in Rushing

White, the OSU fullback, leads the Big 10 in rushing with 151 yards in 46 carries for a 3.3 average. Nationally, he ranks sixth with 450 yards in 122 carries, and is among the leaders in scoring with 48 points on eight TDs.

Kremblas is fifth in the conference's passing list, fourth in total offense and fourth in punting.

Thorton is third in passing and fifth in punting in the conference, while Burton ranks 14th nationally in rushing offense with 396 yards and has scored 50 points on eight touchdowns and two extra points.

Pitt's Ivan Toncic and Bill Kaliden will match their passing with Syracuse's Chuck Zimmerman in a top Eastern battle. Navy's Joe Tranchini will pit his aerial game against Nick Pietrosante's running attack for Notre Dame.

Masked Man, New Wrestling Idol, on Auditorium Card

Promoter Ted Bayly has injected a note of mystery for Monday night's wrestling show at the municipal auditorium.

The so-called Masked Man, height (6-3) and weight (230) but point of origin unknown has been signed to meet Guy La Rose, 235, of Montreal in the best-of-three falls semi-final.

The Masked Man is one of the new sensations of the circuit and Promoter Bayly thinks he'll vie with Miguel Perez for the crowd's plaudits.

Ed Miller, one of three Miller brothers appearing on the card, takes on Steve Stanley, 230, of New York in the one-fall, 30-minute opener.

Main event is a tag-team affair between the Miller brothers (Bob and Bill) against Perez and Lou Torres.

Battered Irish Face Navy

Brennan Prediction Right, ND 3-2, Out of 20 in Poll

SOUTH BEND, Ind. (AP)—Maybe coach Terry Brennan of Notre Dame's football team should have been taken at his word when he said before the season "we're not as good as everybody thinks we are."

The battered Irish go against Navy at Baltimore Saturday with a 3-2 record. Pegged by many in preseason reckonings as the team to beat, the Irish now are not even among the top 20 in the AP weekly poll.

Even in victory, Notre Dame has had to fuss furiously. It opened with an 18-0 verdict over weak Indiana, but led only 6-0 until the final 7 minutes. They had a close call over Southern Methodist, 14-6, and came from behind to vanquish Duke 9-7.

Mauled by Cadets

Army defeated Notre Dame 14-2, but the Irish were mauled by Pistol Pete Dawkins and Bob Anderson more than the score indicated. Last Saturday the Irish finished courageously, but still lost to Purdue 29-22.

Before the season opened, Brennan observed: "We are slow up front. Our depth is not a solid two-deep. And, finally, we have to have a lot of breaks, escaping injury and getting the right bounce of the ball."

Certainly they have not escaped injury. Fullback Nick Pietrosante, guard Al Ecuyer, center Bob Scholtz, halfback Jim Crotty, quarterback Bob Williams and guard Jim Schaaf have spent costly time on the bench due to ailments.

As for the right bounce of the ball, Notre Dame has fumbled 23 times and lost the ball 13 times in 5 games. For all of last season they had only 28 fumbles and lost the ball 14 times.

Even after they beat the Irish, Army coaches were oohing about the personnel at Notre Dame: "Why, they've got five quarterbacks, any one of them good enough to play first string at Army." . . . most impressive thrower we've seen this fall is ND's George Izo. . . .

Maybe they ought to find out from Johnny Michelosen how to stop the scourge of the pros, Jimmy Brown . . . the Pittsburgh Steelers wouldn't draft him after watching the Pitt Panthers stop him with fewer than 20 yards gained two straight years at Syracuse. . . .

* * *

Bert Bell never could build a winning shop in Philadelphia, when he was an active pro . . . but the NFL commissioner gave Baltimore a winning operation when he insisted Don Kellett, baseball's first bonus baby, become the top front office man. . . . Kellett's coup: an 80 cent phone call to Pittsburgh that landed Johnny Unitas . . . although Kellett, who ran a Philly TV operation, never had any grid administrative experience . . . he's landed six free agents on the Colt roster . . . and an unprecedented 13 rookies made the club in '55. . . .

Stroke of luck: whe nthe LA Rams put Gene Lipscomb on waivers, the Colts claimed Big Daddy for the 100 buck fee . . . but so did the SF 49ers, who had first shot at him . . . only their telegram arrived in league headquarters minutes after the 24-hour waiver period expired. . . .

* * *

Coaches complain that they can't see anything on the sidelines . . . we watched the Giants with injured Frank Gifford from the press box . . . where he complained: "I got to get back down on the field. I can't tell what's going on up here." . . . Gifford on his knee ligament tear: "It was a stupid play . . . after all these years I should know better than to spin out of a sure tackle. . . ."

This is how you follow a game with a guy like Giff: "Here comes delay 26, wing fly . . . oh, oh—red dog . . . automatic 82 . . . betcha he tried 45 cross next . . . they're zoning us." . . .

* * *

Don Maynard is a long-sideburned rail out of Texas Western (called Elvis) who was supposed to sub for Gifford . . . so they lined him up with a New York columnist for an interview at Toots Shor's in mid-Manhattan . . . and put him on the right subway from the Bronx . . . only he got lost in the Rockefeller Center area and never did find Shor's . . . blew the interview . . . and didn't his loss of direction cost him 50 bucks? . . .

The humbleness of Dick Bass, leading college ground gainer . . . after Marquette handcuffed the College of the Pacific ace by stacking three men on him every play. He met publicitor Bill Tunnell in the hotel elevator: "Let me apologize for one of my worst performance. It makes your job hard." . . .

* * *

Abe Saperstein used to bring in his touring basketball Harlem Globetrotters to stage private games in the Vatican for the sports-loving, late Pope Pius. . . .

Man who's having the best time of his life second-guessing football games around the East is Lou Little . . . since he's retired to become a pundit of the press box. . . .

Between you'n'me, one reason why the Ivy League prexies won't rescind the ban on spring practice . . . and restore the circuit to major league football . . . is that at least one of their member coaches pops off on the subject every fall . . . and solidifies their stubborn resolve to keep the boys picking daisies in the spring. . . .

Amortizor, Speedster Take Pacing, Trotting Honors

Amortizor and Speedster were the money boys of the 1958 Empire State Racing and Trotting Classics at Saratoga Raceway and Vernon Downs. Between them, they won $113,640 of the $300,000 raced for in the companion series at the two upstate New York tracks.

Seven-year-old Amortizor, owned by the Hillside Farm, Syosset, L. I., earned $57,700 in the Pacing Classics, capturing five of the seven $20,000 legs as he posted 10 wins and three seconds in 14 dashes.

Four-year-old Speedster, property of the Merry Lyn Farms of Williamsville, won $55,940 in the Trotting Classics. He took top honors in five of the eight $20,000 legs of this series, racking up 10 victories, five seconds and a third in 16 dashes.

Zornow, Pittsford, $10,440; Jug Chief, Newport Stock Farm, Farm, $7,620, and Frisco Creed, Hayes Fair Acres Stable, Duquoin, Ill., $4,500.

The two Empire series produced an imposing collection of fast miles. All 14 dashes raced over Vernon's three-quarter mile course when the surface was fast, plus another when the track was classified as good went in 2:01 3/5 or better with five of these in two minutes or quicker. Amortizor and Chief Rainbow both scored in 1:59 1/5, Frisco Creed connected in 1:59 2/5, and Speedster registered in 1:59 4/5 and in two minutes flat at Vernon.

Twelve of the 14 dashes contested over a fast strip at Saratoga's half-mile oval went in better than 2:03 with four in 2:01 or faster, including Chief Rainbow's 1:59 2/5 that set a world's record for a pacer in a second heat. Amortizor flashed to victory at the Spa in 2:00 1/5, 2:00 4/5 and 2:01.

Brown Says Jim Best Draft Pick Ever by Browns

CLEVELAND (AP)—"That was Jim Brown!"

The announcer's voice boomed over the public address system, but most of the people in the vast stadium knew without being told. They had watched the opposing team in a huddle moving down the field—the wrong way—and at the center of the huddle was Cleveland's fullback Jim Brown.

But there is more than bulldozing behind Brown's wholesale attack on National Football League statistical records.

He is fast, one of the best sprinters on the squad. Give him a little space and he's off.

What makes Jim Brown go?

The 6-foot-2 former Syracuse star scorns statistics which many cite when they predict he will become one of the greatest stars of professional football. What gives him the greatest satisfaction is not the long touchdown run but "knowing that I played a good game."

Brown in five games has averaged 163 yards per game—more than twice his average last year as a freshman when he led the league in total yards gained rushing. With seven more games to go, he seems to be a cinch—barring injury—to better the record of 1,146 yards Steven Van Buren of Philadelphia set in 1949.

Coach Paul Brown calls Jim the "best draft choice we ever made." Brown points to Jim's muscular physique as part of the answer to the mystery of the fullback's spectacular success.

Jim has "such a terrific thigh structure that he hurts tacklers," Brown told one sports writer.

Felt Better: Roberts on Comeback Title

SAVANNAH, Ga. (AP)—"I felt better and was throwing better."

That's how Robin Roberts summarized his 1958 pitching record of 17 victories and 14 losses that won him the Comeback Player of the Year title in the National League.

Roberts got 59 of the 98 votes by members of the Baseball Writers Assn. of America in the annual Associated Press poll. Bob Friend of Pittsburgh got 21 votes and Bobby Thomson of Chicago 13.

The 32-year-old Philadelphia hurler referred to his dismal 10-22 record for 1957 and said it "definitely made me a candidate for the (comeback) honor, didn't it?"

The strapping right-hander did not make any excuses after that fiasco. "I just got clobbered. That is all," he said.

But Roberts, in Savannah to look after his seafood packing and restaurant business, had a ready reason for his improvement.

"I suppose I made a comeback this year because I felt better and was throwing better," he commented. "I wasn't throwing any different stuff — not too much anyhow — but I was throwing better.

"I can tell you one thing. I'm looking forward to next season and I personally hope to do better. I feel fine and I suppose this feeling comes from winning. It makes a lot of difference the way you feel when you're out there winning."

Roberts' 1957 mark was the worst in his major league career. He won 20 or more games for six straight years, 1948-55, before dropping to a 19-18 mark in 1956. Then in 1957 his earned run average soared to 4.07. But his 1958 performance trimmed this to 3.27.

Balotins Score 60-50 Win in YM 'A' League

Balotin's Rx won their second game in six starts in the "A" Division of the YMCA last night defeating Back's, 60-50.

The second victory was accomplished mainly by the efforts of Joe Dalleo who scored 15 points. Bob Slater was close behind him with 12.

Dick Chatham's 22 points paced the losing effort.

Balotin's jumped to a three-point lead in the first period and kept the margin alive at the intermission. Back's scored only three points in the third period, but came back strong in the last quarter to outscore the winners by seven points.

Dawkins Back and Ready

Army Regains Strength For Colgate Test Saturday

Having been slowed somewhat by Pittsburgh's practitioners of attrition, Army's still - to - be - stopped Black Knights go against Colgate here Saturday. It's the beginning of the stretch drive for the Cadets and with Capt. Pete Dawkins back in harness, the outlook naturally seems brighter.

The 14-14 tie with Pittsburgh removed a bit of the shine from Coach Earl Blaik's wards and stripped them—momentarily at least—of their No. 1 national ranking.

But they're still unbeaten and with halfback Dawkins healthy again and fullback Harry Walters on the mend, they're in much better shape to do battle than they were this time last week. Dawkins played only briefly against Pitt; Walters—except for two extra point kicks—was a non combatant.

Dawkins will start against Colgate, returning Steve Waldrop to second team status. Don Bonko, who performed admirably in Harry's sted last week, will again start at fullback, Blaik preferring to give Walter's sprained ankle more time to heal.

This will be the 17th game in a series that began in 1903 with a 0-0 standoff. Army since then has won 12 times, Colgate twice and there was one other tie. The Red Raiders haven't beaten the Cadets since 1936, but put on a terrific show here in 1956 before losing, 55-46, in the highest scoring game ever played at Michie Stadium. Army won, 53-7, last fall.

Pettit Pours 37, Hawks Rip Lakers

By THE ASSOCIATED PRESS

Bob Pettit still is the same Bob Pettit of last season. For the St. Louis Hawks that is good news. For their rivals in the National Basketball Assn. it is bad.

Pettit tallied 37 points Wednesday night to run his total for three games to 91 as the Hawks defeated the Minneapolis Lakers 112-100 and took over first place in the Western Division. Last season Pettit was the league's third ranking scorer with a game average of 24.8 points.

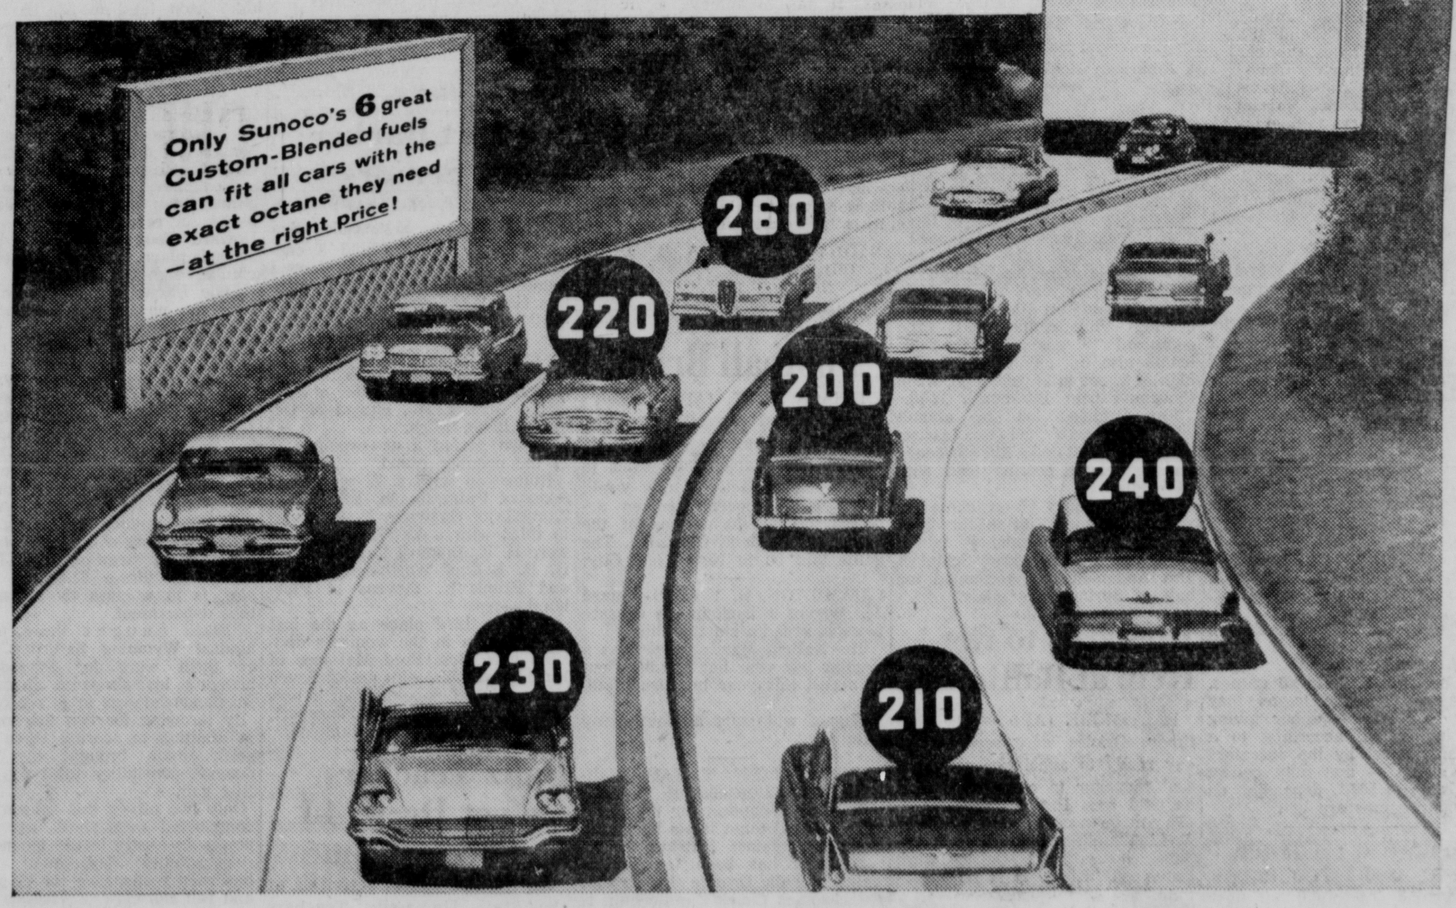

The former Louisiana State All-America hit on 15 of his 23 field goals attempts and paced the Hawks' fourth-period attack as they turned the game into a rout. The score was all-square at 78 going into the final quarter. Then Pettit made 10 of his 37 points to put the game out of reach of the Lakers.

The Raiders, coached by Fred Rice, have dropped four of five this season, but showed improvement in a 14-7 loss to Yale Saturday. None of the Colgate opponents has been able to handle fullback Bernie Daily, a 220-pounder who on 63 carries has gained 265 yards. Quarterback Ray Harding has passed for 186 yards, completing 17 of 46.

Calhoun Form Off in Win Over Szusina

ROCHESTER, N.Y .(AP) — "This guy is shorter than most. He made it tough for me."

Thus did Rory Calhoun, high ranking middleweight, concede he hadn't looked as sharp as he might Wednesday night in winning a unanimous 10-round decision over Germany's Franz Szuzina in their televised fight.

All three officials made the 24-year old minister's son from White Plains, N.Y., the winner by a wide margin but Calhoun wasn't satisfied with his performance.

Referee Joe Palmer, who took the seventh round from Rory because of low blows, scored it 7-2-1. Judge Harold McGrath had Calhoun winning 9-1 and Judge Charles di Salva 8-2. The Associated Press card was 7-3 for Calhoun.

Calhoun spent most of the evening slamming away at long range, but he also was able to contain Szuzina's usually strong body attack in the clinches. There were no knockdowns, but Rory slipped to the canvas four times. He said he fell over his own or Szuzina's feet trying to set up Franz.

"He's very strong," said Rory. "I thought my best punch was a right hand in the fourth round." But Franz was not fazed.

Szuzina, a 29-year-old veteran who is studying for his U. S. citizenship papers, said he wasn't used to boxers like Calhoun, and thus was uncertain of his attack.

Franz figured Calhoun's margin on the officials' cards was a mite on the wide side. He said he thought he had been hit below the belt in every round.

Calhoun was warned about low blows in the second round and again in the fourth. In the seventh Palmer warned him twice.

Calhoun's victory was his 37th in a 48-fight career that started four years ago and his fifth this year. Franz, who turned pro in Germany in 1950, has won 46 of his 65 bouts.

LINEMAN OF WEEK—John Guzik, 233-pound Pittsburgh guard, was named Lineman of Week by The Associated Press for his play against Army. Teams played to 14-14 tie. (AP Pirephoto)

Elliott's Two Records Seen Unbeatable for Many Years

field harvested a rich crop of records in 1958—in all, 26 were bettered and equalled—but one athlete's feats stood alone in a peak of greatness.

This will always be remembered as the year of Herb Elliott of Australia. Elliott, only 20, and some years away from his best, did something more than set almost unbelievable records 3 minutes 54.5 seconds for the mile and 3:36 for the 1,500 meters better than 3:54 in the mile.

He was unbeatable. He has never lost a mile or a 1,500 meter race in his short two-year career. He has been beaten by Brian Hewson in an 880-yard contest and in a two-mile race where he wasn't really trying.

Elliott himself is expected to get down to 3:50 or thereabouts in the mile and 3:32 or so in the 1,500 meters within a year or two.

Pitt's Guzik 'High Class': Coach Michelosen

By GEORGE ESPER

PITTSBURGH (AP) — Pitt's John Guzik, Associated Press Lineman of the Week, is a modest, affable football giant who calls himself lucky and passes his laurels to coaches and teammates.

Pitt Coach Johnny Michelosen describes him as "a high class kid" both on and off the field.

"He's played real good football," Michelosen adds. "I hope he continues to do so. He's very proficient at diagnosing plays."

Asked how he felt when learning of his selection by The Associated Press, Guzik said:

"Well, sir, I was kind of surprised. I didn't expect it. I played against a real good guard in the Army game, Bob Novogratz."

Guzik, 230-pound senior guard and linebacker, doesn't carry a rabbit's foot around with him, but he insists he's been lucky.

"I've been able to make more tackles," he explains, "thanks to my teammates. The fellows in front of me are doing such a good job preventing opposing linemen from blocking me that I'm able to move freely and get in there and make the tackles."

Guzik attributes a great deal of his success to being able to diagnose plays and credits Michelosen with helping him become an expert at the trick.

Just like any other grade school kid, Guzik, who lives in nearby Cecil Twp., dreamed of becoming an All-America football player someday.

Guzik, who will graduate from the school of business administration in February, hopes to make the grade in professional football. He was the fourth draft pick of the Los Angeles Rams last year.

Browns Drawing Many Customers

CLEVELAND (AP)—The Cleveland Browns' exciting offense is winning more than games this year — it's winning customers.

Attendance at next Sunday's game here with the New York Giants is expected to exceed 60,000. If it does, it will be the third time in three home games that the Browns have drawn more than 60,000.

The opener here this year drew 65,403 fans, and 66,852 were on hand two weeks ago.

Cornell's Hazzard Poses Threat Against Columbia

By THE ASSOCIATED PRESS

"It's all-around improvement at Cornell."

"Fast, aggressive runner and dependable blocker."

Both lines appear in the 1958 Cornell football brochure.

There is no argument with the first, already achieved as the Big Red leads the Ivy League with a 3-0 record. Cornell won only three games last season.

But the significant part about the improvement is that it has come about without the young gentleman described in the second line.

He is halfback and captain Bob Hazzard, the converted fullback who was expected to carry the bulk of the running attack for the Big Red until a knee injury shelved him before the start of the season.

He's ready now, and Cornell should be the tougher for it. Hazzard worked out Wednesday with a lengthy scrimmage for Saturday's game with Columbia at New York. With Cornell favored by four touchdowns, coach Lefty James should be able to gradually work Hazzard back into the lineup.

Princeton will have both sophomore members of its tailback trio ready for spot duty against Brown Saturday. Coach Dick Colman said John Sullivan and Hugh Scott have recovered sufficiently from injuries to spell senior tailback Dan Sachs. All three have been hurt at various times and they have taken turns in making the Tiger single wing move.

The backfields were more of a problem at Yale and Penn.

Yale coach John Olivar experimented with several combinations Wednesday, looking for a top offense-defense unit to face Bill Gundy, Dartmouth's fine quarterback. Olivar tried eight men in the four backfield posts with Rich Winkler being groomed at both half and full.

Penn Coach Steve Sebo is without his chief breakaway threat for the Harvard game Saturday. Dick Koze, who won a starting job with a 72-yard scoring run against Brown two weeks ago, will be out with an arm injury suffered last week in the Navy game. Dave Coffin will replace Koze.

Face Jury Trials For Michigan Campus Gambling

ANN ARBOR, Mich. (AP) —Two star athletes of the University of Michigan and five other students will get jury trials next month on charges growing out of an investigation of campus football gambling.

The seven students stood mute Wednesday at their arraignment on charges of engaging in an illegal occupation. They demanded jury trials.

Under Michigan law the court automatically enters a plea of innocent for persons who stand mute.

The charges against the students carry a maximum sentence of 90 days in jail and $100 fine on conviction.

The athletes were Tony Rio, Michigan's first - string fullback since a knee injury sidelined John Herrnstein several weeks ago, and Jack Lewis, captain of the Wolverines' basketball squad. Both are 21 and from Chicago.

They were dropped from their athletic squads by order of Athletic Director Fritz Crisler.

The other students were Nick Mitea, 21, of Ecorse, Mich., Durwood Collins, 22, of Houston, Tex., Michael G. Dodgson, 21, of Grand Rapids, Mich., Carl M. Riseman, 21, of Detroit, and John A. Miller, 19, of Utica, Mich.

Detective Lt. George Stauch said they were accused of distributing football spot cards.

The cards list up to 40 games. Purchasers pick the teams they believe will win — either giving or taking points, according to a point spread set by the operators of the cards — and may collect on odds up to 500-1, depending on how many games are bet.

Indians Burst Barons Bubble In AHL Action

By THE ASSOCIATED PRESS

The Springfield Indians have demonstrated very clearly that the Cleveland Barons no longer are the feared Barons of the 1957-58 American Hockey League season.

In the circuit's only game Wednesday night, the Indians thrashed the Barons 14-5 to tie a 10-year-old club record and send last season's runnerup club down to its fifth straight defeat. The Barons have won only two of their nine games. They also tied one.

The Indians fell two goals shy of the single game league high for one team. Ten years ago, in Nov. 1948, Buffalo set the record by beating Philadelphia 16-4. The combined 19 goals by the two teams also fell shy of the league high of 22 set in March, 1945, when Cleveland beat Pittsburgh 12-10.

Ken Schinkel led the assault with four goals and two assists and tied Buffalo's Bill Sweeney for the league scoring lead with 16 points.

Rookie Dennis Olson came up with three goals, all in the third period. Harry Pidhirney tallied twice as the Pidhirney-Schinkel-Jim Anderson line accounted for half of Springfield's goals.

Richards to Get Help at Baltimore

BALTIMORE (AP) — The Baltimore Orioles were reported today ready to appoint a new general manager to ease the burden on field boss Paul Richards.

The move was reported by Jesse A. Linthicum, sports editor of the Sun, who said the Orioles were convinced "Richards is no superman."

Richards has held the dual job of manager - general manager since moving to Baltimore from the Chicago White Sox for the start of the 1955 season. He was manager at Chicago.

Canadiens Set For NHL Runaway

By THE ASSOCIATED PRESS

The Montreal Canadiens rapidly are making shambles of the National Hockey League pennant race.

Unlike a year ago when the Canadiens got off to a slow start, the league and Stanley Cup champions have chalked up seven victories and two ties in 11 games this season. They hold a seven-point margin over the Boston Bruins and New York Rangers, deadlocked for second place.

The Canadiens picked up two points Wednesday night by shutting out the Toronto Maple Leafs 5-0 while the Bruins and Rangers played to a 2-2 standoff for their third tie.

Playing their fourth game in five nights, the Canadiens rolled up one of their easiest victories as goalie Jacques Plante posted his second shutout of the campaign. Dickie Moore, Bernie Geoffrion, Jean Beliveau and rookie Ab McDonald took care of the Montreal scoring.

The Rangers apparently had their game with the Bruins won when the clock showed only nine seconds remaining. But Fleming Mackell took three swipes at the puck and with the last one sent the disc bounding past Gump Worsley for a tie.

Football Briefs

ITHACA, N. Y. (AP)—Cornell's football squad ran off a lengthy, outdoor scrimmage Wednesday after being restricted by rains to mostly indoor activity this week.

The team concentrated on defenses against formations of the Saturday opponent, Columbia. The game will be in New York City.

HAMILTON, N. Y (.AP)—Guard Joe Wignot is back in the Colgate football squad's starting line.

The Natick, Mass., junior was a regular last year but has been out of action this year because of illness.

Wignot will start against Army Saturday.

SYRACUSE, N. Y. (AP)—Halfback Tom Stephens of Mohawk will be a co-captain for the Syracuse football team in its big game Saturday against Pittsburgh.

Stephens has been top ground gainer for the Orange this season. Quarterback Chuck Zimmerman is the other co-captain.

Coach Ben Schwartzwalder put the Orange through pass-defense drills Wednesday. A strong aerial attack is expected from the Panthers.

Watson Claims Starting Berth

WASHINGTON (AP) — Sid Watson evidently has won the starting left halfback job for the Washington Redskins just in time to face his old teammates, the Pittsburgh Steelers.

Watson played three years for the Steelers before he was dropped last summer and snatched up quickly by the Redskins. The former Northeastern University back sat out some early season games because of broken ribs. But he returned to work last week and seems to have edged Ed Sutton for the starting assignment.

TOKYO (AP) — Japan expects U. S. Davis Cuppers Ham Richardson and Alex Olmedo to win the men's singles and doubles in the All-Japan Tennis Championship at Osaka Nov. 1-8.

Paltz Teachers Defeat Drew, 4-1 In Soccer Game

In the fall sports activities at the State University Teachers College last week, the "Hawk" soccer team lost to the Drew University team 4-1, in a game Friday afternoon on the "Hawk's" home field.

This was an unscheduled game arranged on a day's notice.

Two of the Drew scores were contributed by Ed Smith, and the other two goals were made by Craig Wilkenson and Tony Kaufer. The lone New Paltz score was by Eric Anderson, the young New Paltz left wing from Crumville, New York. Tony Potts, the New Paltz captain, played a strong game, along with Marty Wilde, the "Hawk" goalie.

The next "Hawk" soccer game is scheduled for November 7 when the New Paltz squad travels to West Point for a tussle with the West Point Junior Varsity.

The Cross - Country track meet scheduled for October 25 against Montclair State Teachers College of New Jersey, was postponed until a later date because of weather conditions.

On November 1, the runners will meet Utica College at Utica.

Raiders Romp, 89-21 in YMCA 'C' Loop Win

Bob Lawrence poured in 20 points last night in the YMCA "C" Division to vault the Raiders to a 89-21 victory over Elston's.

The victory was the sixth straight for the Raiders, who had four players in double figures.

Chick Boice (19), Mike Garcia (18) and Roy Havens (16) were right behind Lawrence in the scoring column.

Tom Prisco's 11 topped Elston's scoring, which was reduced to a minimum of one point in the last period.

Virginia Ace Tops Receivers With 32 Passes

By THE ASSOCIATED PRESS

Three new individual offense leaders bobbed up in major college football this week, all taking over with spectacular performances.

Sonny Randle of Virginia nabbed nine tosses last week and raised his season total to 32, the most any player has made in six games since 1952. This despite the fact Virginia's ace passer, Reece Whitley, has been sidelined with injuries the past two weeks.

Bill Austin, Rutgers' man of all work, scored three times against Lehigh last Saturday, bringing his total to 66 points. He now has scored more touchdowns in five games than any major college player in recorded history — 10. Howard Cook of Colorado is in second place with 53 points, including eight touchdowns.

Dale Hackett of Wisconsin took over the punt-return lead with a 64-yard touchdown gallop which blotted Ohio State's perfect record with a tie.

Only Georgia's Bob Walden, with a 47.4-yard punting average; Drake's Tom Newell, with 27 yards on kickoff returns, and Don Black, New Mexico's spectacular pass catcher who has averaged four points for every catch, retained their leads in their respective departments last week.

Bill Kreitling of Illinois, who has covered 426 yards on only 13 pass receptions for a 32.8-yard average, is in a class by himself in that department.

Black caught three passes against Wyoming Saturday. Two of them were for touchdowns, bringing his six-game record to seven touchdowns in 10 receptions. By throwing for two touchdowns, in addition to scoring three himself, Austin brought his touch down-responsibility total to 17 in five games.

Only two others this season have contributed even half as many points as Austin in the touchdown-responsibility department. Cook has been responsible for 71 points, and Bill Holsclaw of Virginia Tech for 58. Austin's total is 114, including six extra points.

Ground Is Broken For Frisco Park

SAN FRANCISCO (AP) — A big mobile cement mixer rolled up to a site on Candlestick Point Tuesday and disgorged six tons of mix — the beginning of a new home for the San Frnacisco Giants.

The race to get the $15,000,000 city-owned stadium ready by next Sept. 1 had begun and is slated to continue despite legal measures to investigate.

The San Francisco grand jury is considering whether to investigate transactions involved in the city's negotiations for the site and construction of the stadium. City voters already have approved the deal.

Son of Actress Killed in Crash Of Light Planes

LOS ANGELES (AP)—Collision of two light planes over the San Fernando Valley killed three men, including actress Maureen O'Sullivan's 19-year-old son.

He was Michael D. Farrow, first of seven children of the Irish-born actress and movie writer-director John Farrow. The parents are in London, where the elder Farrow is completing production of a picture.

Michael, who had a student flying certificate, was killed Wednesday in one plane with David H. Johnson, 21, a flying instructor at a small airport in suburban Pacoima.

The other victim, flying alone in the other craft, was Donald W. Preneville, 39, of nearby Glendale.

The single-engine planes collided at about 600 feet in clear, sunny weather and fell 200 yards apart at opposite sides of a gravel pit near the airport.

Rockefeller Is For Route 28 Reconstruction

Nelson A. Rockefeller, Republican candidate for governor, indicated his support for the reconstruction of Route 28 through the Catskill Mountain region today in a letter received by a staff correspondent of the Catskill Mountain News, Margaretville.

Rudy Frank, correspondent of the Margaretville weekly, said he received an answer to his inquiry about Rockefeller's position on the reconstruction of Route 28.

In the letter, Rockefeller indicated his great concern "at the way our state's transportation is declining.

"The importance of Route 28, not only to Ulster, Delaware and Greene Counties, but to a great portion of eastern New York, and to so many vacationers and tourists, makes its reconstruction an important part of our New York State highway improvement program.

"Route 28 is one of the state routes that should be rebuilt and improved. It is an important highway and one of the primary access routes to our state's great Catskill resort and vacation region."

Quemoy Is Taking Odd-Even Shelling Policy in Stride

QUEMOY (AP) — Red China's new every-other-day war policy doesn't mean a thing to the people of shell-scarred Quemoy.

Exemption of supply landing areas from attack on even-numbered days — such as today — is academic to them.

Little Difference

"What difference does it make?" asked a Quemoy City shopkeeper. "One day they shell the beaches. The next day they don't. But they still shoot at the rest of the island."

"Just another plot," said Col. Richard Kung, the city's supply director. "They are still shelling the people."

So far the Communists have lived up to their peculiar odd-even-day plan. No shells have hit the beaches or airstrips on even-numbered days.

Two planes from Taipei landed today without interference. Rough weather in Formosa Strait again barred sea supply convoys from testing the Communists' pledge.

The lightening of the daily bombardments in the past 10 days has generally relaxed tension on the island, however. Electricity has been restored. Shops stay open most of the day. Children play and soldiers and civilians stroll the streets of Quemoy City.

Chiang Gets U. S. Tanks

Nationalist defense headquarters in Taipei said the Reds lobbed only 164 rounds on the Quemoy islands during Wednesday night, and 221 in the 18 hours after 6 a.m. Thursday.

The United States further bolstered the Nationalists' armed forces. U.S. commanders turned over 46 fast M41 Walker Bulldog tanks, which the Nationalists may eventually send to the Quemoys as a precaution against invasion, and four amphibious barges with a capacity of 100 tons of cargo or 100 troops.

Liberty Area Men Perish in Crash

LIBERTY, N. Y. (AP) — An automobile went off a highway at a cruve on Route 52 today, struck a tree and cost two men their lives.

Paul Kohler, 26, a passenger, was found dead at the scene. Philip Erdman, 41, the driver, died later in Liberty Loomis Hospital. Both were residents of nearby Jeffersonville.

Sawyer Debaters Drop Six; Post Record Low Score

Winter's icy blasts and drizzling rain dampened Saugerties Debate hopes in the Tri-State Tournament Saturday at Jamestown. The varsity contingent of Nancy Overbagh, Carolyn Roeser, and Hannah McLennon dropped all six debates to post the lowest varsity score in three years.

Among the schools triumphant over Saugerties were the host school Jamestown, Meadville, and tourney winners third place Webster (4-2) and first place Canisius (5-1).

The "B" squad of Nancy Misasi, Malcolm MacKay, George Popowicz, and Stanley Newkirk redeemed Sawyer fortunes by finishing in a multiple tie for third place. After dropping opening rounds Friday night to Columbia High School and Canisius, they rallied Saturday to win all four closing debates. Among the teams they defeated Saturday were Regis (NYC), St. Mary's (Buffalo), Bradford, Pa., and Frewsburg, New York. The "B" Division was tied by Canisius 5-1 and Webster 5-1 with identical scores as well as identical won-loss records.

At Norwich a second JV squad of Charlotte Bell-Stephen Borner affirmative and Michael Breen-Arlene Krom negative posted a record of four wins and two losses in a practice meet with Jeffersonville, Norwich and Utica.

This Saturday two Sawyer squads composed of Nancy Overbagh, Carolyn Roeser, Malcolm MacKay, Paul Kruger, George Popowicz, Stanley Newkirk, Hannah McLennon and Carolyn Halpert will journey to Jeffersonville to compete in the Metropolitan Upstate Invitational Tourney.

The 6-year-old son of Adios, owned by R. G. Yeager of Akron, Ohio, was driven by Earl Roush. He returned $7.30 as the favorite in notching his third victory in 31 starts.

Andy Byrd, with owner Harold Wellwood of Dearborn, Mich., at the reins, won the feature Class B pace at Batavia Downs.

The 4-year-old gelding edged Berton Hanover by three-quarters of a length in touring the mile in 2:08 2-5. He paid $6.40.

Man, 90, Loses Home in Sale; But He'll Stay

NORRISTOWN, Pa. (AP) — A 90-year-old man living alone on a meager pension lost his rural home at a sheriff's sale Wednesday. But the woman who bought it firmly told him he could live there until his death.

Miss Rose Farber was an unexpected bidder for the three-story stone house and 18 surrounding acres where Cadwallader Clegg has lived for 50 years.

Quietly announcing her bids, she finally got the home and land for $10,000. Clegg's creditor's bowed out at $9,700. Miss Farber said she represented a real estate investment company. She didn't say what the company plans to do with the rundown property.

But she told the men gathered at the county courthouse for the sale: "Mr. Clegg will be allowed to occupy the house as long as he lives."

STOCKHOLM (AP) — Three American scientists won the 1958 Nobel Prize in Medicine and Physiology today for solving some of the basic riddles of heredity.

Their discoveries were credited by a member of the prize-awarding body with opening new avenues in cancer research.

The winners are Dr. George Wells Beadle, 55, of the California Institute of Technology; E. L. Tatum, 49, of New York's Rockefeller Institute; and Joshua Lederberg, 33, of the University of Wisconsin.

The Royal Caroline Institute of Medicine said half the $41,420 prize would go jointly to Beadle and Tatum "for their discovery that genes act by regulating specific chemical processes."

The other half went to Leder berg "for his discoveries concerning genetic recombination and the organization of the genetic material of bacteria.
